USDA

FORM Q 6
Field Scale Check
2011

NATIONAL AGRICULTURAL STATISTICS SERVICE

Year, Form, Month.	1 – 5 __ 0 6 __ __
Region, State, District.	6 – 9 1 __ __ 1
Scale ID.	10 – 18 3 __ __ __
Date: _____	19 - 22 0 __ __ __
Scale Assigned to Enumerator: _____	671
Scale checked by Supervisor _____	672
OFFICE USE	673

INSTRUCTIONS

The enumerator will weigh the test weights supplied by the supervisor. The supervisor will record the scale readings and the true weights for each test and compute the difference between them. The supervisor will not disclose the true weights until after the tests are completed and should not help or interfere with the weighings by the enumerator in any manner except to verify that the weights are identified correctly.

	SCALE READING	TRUE WEIGHT	DIFFERENCE	TOLERANCE CORN	TOLERANCE COTTON	TOLERANCE POTATOES
Test weight # 1.	601 • —	605 • —	609 • —	.25 lb	2 g	10 g
Test weight # 1 and 2.	602 • —	606 • —	610 • —	.50 lb	3 g	30 g
Test weight #1,2 and 3 (Except Potatoes).	603 • —	607 • —	611 • —	.75 lb	4 g	

Supervisor will remove from service any scale that does not meet tolerances on all tests.

Was scale removed from service?. . . . . ☐ YES = 1 ☐ NO = 3 613

Enter code(s) for all crops for which this scale is used.. . . . . Corn = 2, Cotton = 3, Potatoes = 8 — Crop Code 614 — Crop Code 615
