I would like to express my thoughts on church exemption from filing a form 990.

All non-profits, who are not paying taxes, are being subsidized by the tax payers. They should have to be transparent if we have to subsidize them. Large mega-churches whose ministers are flying around in private jets and making large salaries are not something I want support. I don't mind subsidizing churches that are doing charity work, but don't want to subsidize their preaching or lavish lifestyle.

By requiring that churches file Form 990, I believe we will save the taxpayers money and close this loophole used by unscrupulous church leaders.
