Address: United States,

General Comment

People should do what they need to do to help animals to survive and thrive in their environments. People shouldn't harass and/or kill the animals. People should simply be kind to the animals and help the animals to live in peace. People should only help animals if an animal has been injured or is too vulnerable and helpless to be left on their own like a baby. All these animals should be loved and cared for with the best medical care without killing the animals. In other words, the animals' pain should be relieved as best as possible without killing the animals. Please protect all the animals and list the animals in need of protection now.
