| | | |

Long Title:	Integrated HIV Programs for Health Departments to Support Ending the HIV Epidemic in the United States
Long Number:	PS20-2010
CDC Program Office:	NCHHSTP
Full Recipients:	
Full Recipients CDC:	Janet Hedgpeth (Jhedgpeth@cdc.gov) (STD)
Date Collected:	

Form Approved
OMB Control No. 0920-0840
Exp. Date: 06/30/2006

STD clinic specific measures taken from Component A (with modifications noted in darker shaded cells/columns)

Sample Performance Measure Specifications Form

Performance Measure (PM) reference obtained from Component A worksheet	Performance Measure Characteristics: Program Objective/Strategy Statement	Performance Measure Characteristics: Performance Measure Title	Performance Measure Characteristics: Population Targeted	Measurement Specifications: Unit of Measurement	Measurement Specifications: Numerator	Measurement Specifications: Denominator	Measurement Specifications: Frequency of Reporting	Measurement Specifications: Key Stratifications	Measurement Specifications: Desired Level of Reporting	Data Source Attributes: Data Source(s)	Data Source Attributes: Data Source Agency or Owner	Data Source Attributes: Lag in Reporting	Baseline and Target: Baseline	Baseline and Target: Baseline Year	Baseline and Target: Target	Baseline and Target: Target Year
PM-1	1A.1 Conduct routine HIV testing in health care settings	1A1.1A Percentage of persons tested in health care settings identified as a priority for routine opt-out HIV screening	Persons served at the facility	Percentage	Number of persons in the denominator who are tested for HIV	Number of persons served at facilities identified as a priority for routine opt-out HIV screening	Bi-annually	Age, gender, race/ethnicity, population group	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-2	1A.1 Conduct routine HIV testing in health care settings	1A1.1B Percentage of persons who received an HIV test result in a health care facility that has been identified as a priority for routine opt-out HIV screening	Persons served at the facility	Percentage	Number of persons in the denominator who received a positive test result	Number of persons served at a health care facility that has been identified as a priority for routine opt-out HIV screening	Bi-annually	Age, gender, race/ethnicity, population group	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-3	1A.1 Conduct routine HIV testing in health care settings	1A1.1C Percentage of persons newly diagnosed with HIV in a health care facility that is identified as a priority for routine opt-out HIV screening	Persons newly diagnosed at the facility	Percentage	Number of persons in the denominator who are with a new diagnosis of HIV	Number of persons served at a health care facility that has been identified as a priority for routine opt-out HIV screening	Bi-annually	Age, gender, race/ethnicity, population group	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-14	1A.1 Deliver PrEP services in health care settings and non-health care settings in communities with the highest HIV prevalence	1A1.1 Percentage of persons testing negative for HIV who are screened for PrEP	Persons testing negative for HIV at the facility	Percentage	Number of persons in the denominator who are screened for PrEP	Total number of persons who tested negative for HIV	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-15	1A.1 Deliver PrEP services in health care settings and non-health care settings in communities with the highest HIV prevalence	1A1.1 and 1B4.2 Percentage of persons who are screened and eligible for PrEP referral	Persons testing negative for HIV who are screened for PrEP at the facility	Percentage	Number of persons in the denominator who are eligible for PrEP referral	Number of persons screened for PrEP	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-16	1A.1 Deliver PrEP services in health care settings and non-health care settings in communities with the highest HIV prevalence	1A4.2 and 1B4.3 Percentage of persons who are eligible and referred to a PrEP provider	Persons testing negative for HIV who are eligible for PrEP	Percentage	Number of persons in the denominator who are referred to a PrEP provider	Number of persons eligible for PrEP referral who were identified in STD clinic	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-17	1A.1 Deliver PrEP services in health care settings and non-health care settings in communities with the highest HIV prevalence	1A1.3 Percentage of persons who are referred and linked to a PrEP provider	Persons referred to PrEP who are linked to PrEP provider	Percentage	Number of persons in the denominator who are linked to a PrEP provider	Number of persons testing negative for HIV who are referred to a PrEP provider	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA

STD clinic specific measures (unique; not in Component A)

Performance Measure (PM) reference obtained from Component A worksheet	Performance Measure Characteristics: Program Objective/Strategy Statement	Performance Measure Characteristics: Performance Measure Title	Performance Measure Characteristics: Population Targeted	Measurement Specifications: Unit of Measurement	Measurement Specifications: Numerator	Measurement Specifications: Denominator	Measurement Specifications: Frequency of Reporting	Measurement Specifications: Key Stratifications	Measurement Specifications: Desired Level of Reporting	Data Source Attributes: Data Source(s)	Data Source Attributes: Data Source Agency or Owner	Data Source Attributes: Lag in Reporting	Baseline and Target: Baseline	Baseline and Target: Baseline Year	Baseline and Target: Target	Baseline and Target: Target Year
PM-STD-1	Conduct extragenital screening for STDs	Percent of persons tested for rectal GC/CT who are positive for rectal GC/CT	Persons served at the facility	Percentage	Number of persons in the denominator who had a positive result for GC or CT based on rectal testing	Number of persons tested for rectal GC/CT	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-STD-2	Provide PrEP in the STD clinic	Percent of persons eligible for PrEP who receive PrEP at the STD clinic	Persons seen at the facility who are eligible and interested in PrEP	Percentage	Number of persons in the denominator who received PrEP (prescription and dispensed) at the STD clinic	Number of persons referred for PrEP	Bi-annually	Age, gender, race/ethnicity, population group, test setting (STD clinic, other health care setting, non-health care setting, other)	Aggregate	Testing records	STD clinic	6 months	NA	NA	NA	NA
PM-STD-3	Strengthen STD clinic capacity to provide HIV prevention, care, and treatment services	Number of HIV prevention and education services offered routinely by STD clinics	STD clinics	Number	Number of HIV prevention and referral services	N/A	Bi-annually	N/A	Clinic	Clinic staff	STD clinic	6 months	NA	NA	NA	NA
PM-STD-4	Strengthen STD clinic capacity to provide HIV care, and treatment services	Number of HIV laboratory services offered routinely by STD clinics	STD clinics	Number	Number of HIV laboratory services	N/A	Bi-annually	N/A	Clinic	Clinic staff	STD clinic	6 months	NA	NA	NA	NA
PM-STD-5	Strengthen STD clinic capacity to provide HIV prevention, care, and treatment services	Number of HIV treatment services offered routinely by STD clinics	STD clinics	Number	Number of HIV treatment services	N/A	Bi-annually	N/A	Clinic	Clinic staff	STD clinic	6 months	NA	NA	NA	NA
PM-STD-6	Strengthen STD clinic capacity to provide HIV prevention, care, and treatment services	Number of HIV care models offered routinely STD clinics	STD clinics	Number	Number of service models	N/A	Bi-annually	N/A	Clinic	Clinic staff	STD clinic	6 months	NA	NA	NA	NA

Column Header Definitions

Performance Measure Characteristics	
Program Objective / Strategy Statement	A general statement about a program outcome/strategy/output. Note: Multiple performance measures may be used to assess impact of a given outcome/strategy/output
Performance Measure Title	The fully-defined title of the performance measure.
Population Targeted	The population that the performance measure represents (e.g., tested or served persons only, the general population, subpopulations such as women or youth)
Measurement Specifications	
Unit of Measurement	The unit of measurement or calculation for the performance measure (e.g., number, percentage, rate)
Numerator	Definition and/or calculation of numerator (if applicable)
Denominator	Definition and/or calculation of denominator (if applicable)
Frequency of Reporting	Reporting frequency of primary data source (e.g., bi-annually, quarterly, monthly)
Key Stratifications	List the array of desired for assessing performance within selected subsets (e.g., race/ethnicity, age, gender, testing type etc)
Desired Level of Reporting	Level data is reported at individual level (client/patient/person), line level (clinic, or all the reported data aggregated for all sites)
Data Source Attributes	
Data Source(s)	The source(s) from which the performance measure is derived. If more than one data source is used to calculate the performance measure, note here.
Data Source Agency or Owner	The organization or agency that manages the data source(s) and is responsible for constructing the database and reporting data to the awardee
Lag in Reporting	The time interval between when the data are collected and when the data are reported to CDC
Performance Measure Baselines and Targets	
Baseline	The initial point estimate of the performance measure
Baseline Year	The year for the baseline estimate
Target	The desired point estimate of the performance measure estimate and a set date in the future
Target Year	The respective point estimates and time period of the performance measure data
