# Welcome to the 2025 Annual Integrated Economic Survey

Title 13 of the U.S. Code protects the confidentiality of all your information. Violating the confidentiality of a response is a federal crime with serious penalties, including a federal prison sentence up to five years, a fine of up to $250,000, or both. Only authorized individuals have access to the stored data, and the information you provide to the Census Bureau may only be used by a restricted number of authorized individuals who are sworn for life to protect the confidentiality of your individual responses. Your answers cannot be used against you by any government agency or court.

For more information about how we protect your information, please visit our website at census.gov and click on "Data Protection and Privacy Policy" at the bottom of the home page. On the left menu, click on "System of Records Notices (SORN)," then "List of Available SORNs." From the Commerce website, click "Privacy" in the top menu, then "System of Records Notices." Click on CENSUS-4, Economic Survey Collection.

We estimate the survey will take an average of 2 hours and 15 minutes to complete, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information.

You may e-mail comments regarding these burden estimates or any other aspect of this collection of information, including suggestions for reducing burden, to: EWD.AIES.HELP@census.gov. Be sure to use "AIES Survey Comments 0607-1024" as the subject.
