This report is required by Memo of Understanding. Failure to report cen result in publication of incomplete data for the NPIP

According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB control number. The valid OMB control number for this information collection is 0579-0007. The time required to complete this information collection is estimated to average .5 hours per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information

## SECTION B - FLOCK PARTICIPATION - BY CLASSES AND BREEDING STATUS

Report in this section only the birds remaining in participating flocks after removal of culls and reactors. The status of flocks as to "Primary" or Multiplier" breeding should be defined in 9 CFR 145.1(s) and (t) and reported on VS Form 9-2 or similar State form which is used for reporting flock selecting and blood testing.
