Draft - 4/27/06

Dear IRS Employee Plan Determination Letter Request Customer:

I need your help with an important initiative we are undertaking to improve our service to America's taxpayers.

In a few days, you will receive a survey asking your opinions about the service you received in a recent IRS Employee Plan Determination Letter Request that you handled for your client. If you are not the person who had the most contact with the IRS on this matter, please direct the survey to the person who did.

This brief survey should take less than ten minutes to complete. Your answers will be combined with others to give us an evaluation of customer satisfaction with IRS service.

An independent research company will administer the survey and will keep your individual responses confidential. No identifying information will be associated with your responses. Your responses will be compiled with those of other recent customers and reported only in the aggregate to the IRS.

We are committed to improving service to every customer. Please help me in this effort by completing and returning the survey as soon as possible.

Sincerely,

Steven T. Miller
Commissioner

Office of Management and Budget Clearance Package

Customer Satisfaction Surveys:

Exempt Organization and Employee Plan

Determination and Examination Customers

Internal Revenue Service
Tax Exempt and Government Entities Division

May 24, 2006

Background

IRS has replaced the traditional measures of accomplishment with a balanced measurement system, consisting of business results, customer satisfaction, and employee satisfaction, to assess how well it is achieving its mission and objectives. The IRS Tax Exempt and Government Entities division (TE/GE) has administered four ongoing monthly mail surveys since 2001. TE/GE collects feedback from four customer segments: Employee Plan (EP) Determination, Exempt Organization (EO) Determination, EP Examination, and EO Examination. EP and EO Determination customers are those that have submitted an application to TE/GE to be determined tax exempt. EP and EO Examination customers are Plans and Organizations that have been examined (audited) by TE/GE. TE/GE collects feedback from these four customer segments to identify what TE/GE can do to improve service, to track progress in improving customer satisfaction over time, and to identify improvement opportunities.

TE/GE recently redesigned their four mail questionnaires to more accurately reflect the process that the four customer segments experience and to obtain more actionable results. TE/GE's current statement of work covers six quarters of survey administration: April 2006 through September 2007. TE/GE will begin administering the four redesigned questionnaires beginning with April's closed cases on July 5, 2006, and will continue administering these questionnaires through September 2007 closed cases on December 12, 2007. This clearance package will cover the same period of administration.

Research Methodology

TE/GE will contact customers multiple times to maximize response rates; given past experience with the ongoing mail surveys, IRS should achieve response rates near 50% for each of the four surveys. An independent research firm will administer the survey, analyze the data, and report on the results only in the aggregate.

The contractor will send the questionnaires to a census of all EP and EO Examination customers based on the extract of monthly closed cases received from the IRS. The EP and EO Examination extract is derived from the Audit Information Management System (AIMS) database of organizations whose employee benefit plan(s) and exempt organization status has been examined and their cases closed. Cases closed by the Appeals division, cases closed with either of two disposal codes (claims allowed in full and referrals to other Operating Divisions), and cases with international address are excluded from the sample. For EP and EO Determination customers, a monthly sample of 400 each is selected from the extract of monthly closed cases sent from the IRS. The contractor will stratify the sample by cases approved on merit and cases approved that required contact to produce survey estimates with at least 90%

confidence interval and 5% precision for each type on a semi-annual basis. The EP and EO Determination extract is derived from the Employee Plans/Exempt Organizations Determination System (EDS) database of employee plans and organizations who have submitted an application to be determined tax-exempt and their cases closed. For EO, cases that are closed with codes of no remittance and correction disposal, requests that are amendments or termination of exempt status, and international addresses are excluded from the sample. For EP, cases that are closed with codes of Form 5310A and correction disposal, requests for Notice of Merger and Notice of Qualified Separate Line of Business, and international address are excluded from the sample. Also, the contractor will not send a questionnaire to any customer that received one in the last six months.

The same mailing procedures currently in place will be used for the newly designed questionnaires. The fielding methods and structure mirror the Dillman approach (Dillman, "The Tailored Design Method", 1999). Customers will receive an advance letter from the Commissioner informing them of the survey, they will then receive a letter with the questionnaire followed by a reminder postcard. Lastly, non-respondents will receive an additional letter and questionnaire. Each survey mailing will contain a return postage paid envelope. The survey instrument contains rating questions, demographics, and space for an open-ended comment.

The IRS will assume responsibility for printing the survey with the assistance of Media and Publications, using the print contractor through GPO.

Evaluation

The contractor will need to develop weighting factors and possibly weight the determination survey responses to be representative of the full EO and EP Determination population. The contractor will use basic and advanced statistical techniques including, but not limited to, significance testing and the prioritization of improvement priorities using contractor's established technique.

The contractor will, on a semi-annual basis, summarize the quantitative ratings and produce a national report showing customer satisfaction scores on all survey items and overall improvement priorities for each of the four surveys. The contractor will deliver site-level reports for EP and EO Examination annually. The contractor will include any relevant database variables in the analysis and will weight the survey responses to reflect accurately the entire customer base and will provide documentation of any weighting methodologies and formulas applied to IRS.

Concurrent with the delivery of the reports, the contractor will deliver to the designated IRS official anonymous data files as well as files containing open-ended comments each semi-annual period. Verbatim and data files will be

cleansed of any taxpayer and employee names before delivery to vendor. Data files will include full variable names. Complete record layouts will accompany these files. Files will be delivered in Microsoft Excel format and SPSS format and not be write-protected. Delivery will be by mailing a CD-ROM to Program Leader, Strategic Planning in TE/GE in Washington, DC. Documentation will be provided for all statistical techniques employed in producing the reports. During the first period of survey administration, the contractor will supply a report template for approval by TE/GE Planning. Reports will include:

- Survey counts and overall response rates.
- The overall level of customer satisfaction with services provided by TE/GE.
- The averages and frequencies for all ratings questions.
- Which areas of service, in priority order, TE/GE should focus their resources to improve overall satisfaction.
- Cross tabulations of variables with survey questions.
- Analysis of the relationship between survey responses.
