Changes to EDEN Data Set From 2005-06 to 2006-07

Data Group Changes (Part II)

The changes shown in the following pages are the result of input from three important sources: state EDEN coordinators, program offices in ED, and feedback provided during the initial public comment period. The EDEN team strives to minimize the number of changes to data groups from one year to the next but at the same time recognizes that program office reporting needs change and that refinements may be necessary to existing data groups in order to ensure consistent reporting from one state to the next and maximize the number of states able to provide data.

The following pages show each data group that has a change (in order by section and alpha order by section). Approximately one third of the data groups with changes are provided in this document. The remaining two thirds are in C-1 and C-3. The left side of the page shows the data group as approved for the 2005-06 EDEN reporting cycle. The right side of the page shows the proposed data group for 2006-07. There are check boxes to the right of each element of the data group – Section, Definition, Code Set or Format, Category Set, Subtotal, and Reporting Levels. All changes are marked with these check boxes. Additional notes regarding the change(s) are provided in the far right column of each page.
