

OMB Attachment #4 - Approval of the CDC IRB

From: Peterson, Felecia
Sent: Friday, October 28, 2005 9:54 AM
To: Pogostin, Chet
Cc: Booker, Angela; Baio, Jon; German, Robert
Subject: 2900: IRB Approval of Amendment , (Expedited)

DATE: 10/28/2005

FROM: IRB Administrator
Human Research Protection Office
Office of the Chief Science Officer, OD/CDC

SUBJECT: IRB Approval of Amendment to Protocol #2900,
"Second Injury Control and Risk Survey (ICARIS 2, Phase 2)"
(Expedited)

TO: Chester Pogostin, DVM, MPA [CLP3] NCIPC/

CDC's IRB "G" has reviewed and approved your request to amend protocol #2900 by making several minor changes in the wording to questions in the survey instrument and the child supervision module was completely revamped. By using the expedited review process outlined in 45 CFR 46.110(b)(2), "Minor changes in previously reviewed research during the period (of one year or less) for which approval is authorized."

Reminder: IRB approval of protocol #2900 will still expire on 8/21/2006. Any problems of a serious nature should be brought to the immediate attention of the IRB, and any other proposed changes to the protocol should be submitted as an amendment to the protocol for IRB approval before they are implemented.

If you have any questions, please contact the Human Research Protection Office at (404) 639-4721 or e-mail: huma@cdc.gov.
