TABLE SHELL: MODEL-BASED RESULTS**

Table X. Selected Logistic Regression Estimates for Probability of Committing Any Crime Since Baseline, Estimated Separately for Three Delivery Staff Models

	(Probability Committing Any Crime Since Baseline)		
	Delivery Staff Model		
	Physician N ₁ =n ₁	Nursing Staff N ₂ =n ₂	Substance Use Counselor N ₃ =n ₃
POST	0.000*** (0.000) [0.000***]	0.000*** (0.000) [0.000***]	0.000*** (0.000) [0.000]
Education	0.000 (0.000) [0.000***]	0.000** (0.000) [0.000***]	0.000** (0.000) [0.000*]
Age	0.000* (0.000) [0.000**]	0.000** (0.000) [0.000]	0.000 (0.000) [0.000]

Coefficient is first entry; standard error in parentheses; odds ratio in brackets.

***Significant at the 0.01 level.

**Significant at the 0.05 level.

*Significant at the 0.10 level.
