Rachel, the package to extend the current guidelines and forms for the EU-U.S. Atlantis Program is very similar to the package you approved with the change sheet of March 2006. The guidelines are the same with some minor editorial changes, mostly changing the dates. Beyond that there are no substantive changes proposed for 2007.

The forms for the supplementary title page and budget summary page are two of the consolidated forms you recently cleared for all three of FIPSE's international programs—the U.S.-Brazil Program, the North American Program, and the European Union-U.S. Atlantis Program. I have decided not to use the partner identification form but do use the other two. These forms now are a part of the standard package in each program.

I hope this information helps. Please let me know if I can be of assistance.
