

PROPOSED CHANGES TO CURRENT EVALUATION FOR EXCHANGE, LANGUAGE, INTERNATIONAL AND AREA STUDIES (EELIAS) GRANT REPORTING SYSTEM

The following spreadsheet outlines proposed changes to the EELIAS system. Individual screens are listed for each program, noting who uses the screen, what type of change is proposed, the specific fields added or removed, changes made to the dropdown menu selections, and which report(s) the information is entered for during the grant cycle.

The users included under the **User Type** column include Project Directors, Fellows, Participants, Domestic Institution, and Administering Agency. **Project Directors** are the primary managers of the grants, responsible for overseeing the project activities, fellow activities (if applicable), and for budget management. **Fellows** receive fellowships from a funded institution to conduct overseas research or to take language and area studies courses. **Participants** (generally faculty, teachers, or students) travel with a group for the Seminars Abroad Program (SA) or the Group Projects Abroad Program (GPA), with travel and lodging expenses covered by the funded institution. **Domestic institutions** receive funding for the SA program to conduct a pre-departure orientation in the U.S. prior to the seminar, and manage the budget for the orientation. **Administering agencies** conduct the SA program in the host country(ies), and manage the budget for the seminar.

The reports included under the **Report Type** column are the non-competitive continuation (NCC) reports, interim reports, and final reports. For the purposes of this spreadsheet, **NCC reports** are those submitted in the spring, which are then used to make NCC awards. **Interim reports** are those submitted in the fall or winter throughout the duration of the grant, two months after the anniversary of the grant start date. **Final reports** are due within 90 days of the grant end date.

Program						
AORC	The American Overseas Research Centers program provides grants to consortia United States institutions of higher education to establish or operate overseas research centers that promote postgraduate research, exchanges, and area studies. AORC grants may be used to pay for all or a portion of the cost of establishing or operating a center or program, including the cost of faculty and staff stipends and salaries, faculty, staff and student travel, the operation and maintenance of overseas facilities, the cost of teaching and research materials, the cost of acquisition, maintenance and preservation of library collections, the cost of bringing visiting scholars and faculty to a center to teach or to conduct research, the cost of organizing and managing conferences, and the cost of publication and dissemination of material for the scholarly and general public.

BIE

This program provides funds to institutions of higher education that enter into an agreement with a trade association and/or business for two purposes: to improve the academic teaching of the business curriculum and to conduct outreach activities that expand the capacity of the business community to engage in international economic activities. The purpose of the program is to promote education and training that will contribute to the ability of United States business to prosper in an international economy.

SA	<p>The program provides short-term study and travel seminars abroad for U.S. educators in the social sciences and humanities for the purpose of improving their understanding and knowledge of the peoples and cultures of other countries. Support is generally made available through interagency agreements. The Department of Education transfers funds through the State Department to Fulbright commissions in various countries to pay the costs associated with administering seminars. This partnership allows the program to use the services and expertise of binational organizations to plan and conduct seminars for U.S. educators. There are approximately seven to ten seminars with fourteen to sixteen participants in each seminar annually. Seminars are four to six weeks in duration. All seminars are held in countries outside of Western Europe.</p> <p>Participants use the following screens to report project activity for a reporting period.</p>

	TICFIA						
The Technological Innovation and Cooperation for Foreign Information Access (TICFIA) Program supports projects that will develop innovative techniques or programs using new electronic technologies to collect information from foreign sources. Grants will be made to access, collect, organize, preserve, and widely disseminate information on world regions and countries other than the United States that address our nation's teaching and research needs in international education and foreign languages.
