

NATIONAL VSO SURVEY

**WELCOME TO THE
VETERANS' DISABILITY BENEFITS COMMISSION
SURVEY WEBSITE FOR NATIONAL VSO
ACCREDITED CLAIMS REPRESENTATIVES**

The Commission is conducting this survey to learn about your experiences with and insights into the disability claims process. You have been asked to participate because you are an accredited claims representative affiliated with a National VSO. The information you provide will help the Commission gain a better understanding of how best to compensate and assist our Nation's disabled veterans and their survivors.

Your participation in this survey is voluntary. Refusal to participate involves no penalty or adverse consequences. If you consent to complete the survey, here are some things you should know:

- You may stop at any time, and you may choose to not answer a question at any time.
- Completion of this inventory poses few, if any, risks to you.
- The information you provide will be kept confidential, and your name or any personal identifiers will not be associated with your responses.
- There are no direct benefits to you for completing the survey. However, the information you provide will be of great use to the Commission.

Before proceeding, please read and indicate whether you agree with the following statement. *Click the "Continue" box after indicating whether or not you agree.*

I understand that if I participate in this survey, my responses will be sent electronically to The CNA Corporation (CNAC), which is conducting the survey for the Commission, and that only CNAC analysts will have access to my individual responses. I understand further that CNAC will keep my responses strictly confidential, will use them for research purposes only, and will only report aggregated results that will not permit the identification of individual respondents. *PRIVACY ACT NOTICE: I understand that the information I provide is protected by the Federal Privacy Act Law.* Finally, I understand that the survey should take me about 30 minutes to complete and will ask me questions about the VA disability claims process.

Given these understandings, I voluntarily agree to participate in this survey.

- Yes ⇒ control passes to first page of the survey
- No ⇒ control passes to a Sorry-You-Have-Decided-Not-To-Participate page

NATIONAL VSO SURVEY

Thank you for agreeing to participate. You will now be asked to read and respond to a series of questions. Some questions will have response categories and you will click on the box associated with the category or categories that correspond to your answer. Here is an example of this kind of question.

To what extent do you feel adequately trained to be a certified VSO claims representative?

- Totally
- Almost totally
- Somewhat
- Only a little
- Not at all

This respondent has indicated that he/she feels “somewhat” adequately trained.

Some questions will contain a response category of “other” and you will be asked to *specify* your response if you select that category. For example, you will be asked how useful it would be to be able to consult with people in various kinds of occupations as you assist veterans and survivors. The question lists several occupations and ends with “Other (specify _____)”. If you click on that response category, please specify which other occupation you would find useful to consult.

Other questions will not have response categories, and you should answer them by typing a **brief** response into the text box following the question. The maximum number of characters that can be submitted as your response to such a question is 255 characters, or about 2½ - 3 lines of type. Please keep your responses brief and to the point so that they will not get cut off.

The survey is divided into several web “pages” each containing a series of questions. At the bottom of each “page” there will be a **continue** box that you will click on to electronically transmit all of your responses on that page to CNAC. You can change any of your answers on a survey page before you click *continue*; however, once you click *continue* your answers will be transmitted and you will no longer be able to change them. Please make certain that you are satisfied with your answers and do not want to change them before clicking *continue*.

Once you have completed a page and clicked *continue*, a new page will open. We recommend that you complete this new page right then, but you have the option of exiting out of the website and returning to it at a later time to continue completing the survey. If you do exit the survey before completing it, you can re-enter it by using your unique survey link contained in the email sent to you by CNAC. Please note that you must complete a page and click *continue* before exiting. Exiting a page before clicking *continue* will take you out of the survey but your responses to questions on that page will **not** be saved and will **not** be transmitted to CNAC. When you return to complete the survey at a later time, you will need to re-answer those questions.

Let’s begin the survey now.

NATIONAL VSO SURVEY

SECTION 1: Information About You

- No, it doesn't matter which QTC physician conducts the examination (they're all pretty much the same)
- Yes, I prefer some QTC physicians rather than others to do the exam
- There are no QTC physicians providing medical exams at this Regional Office

32. If yes to either question 34 or 35, why do you prefer some VA or QTC physicians over others?

33. How would you rate the performance of this VBA Regional Office in carrying out the "duty to assist" for veteran and survivor claims?

- Excellent
- Good
- Satisfactory
- Fair
- Poor

NATIONAL VSO SURVEY

34. How might its performance be improved?

35. How would you rate the coordination between this VBA Regional Office and the military during the Benefits Delivery at Discharge (BDD) claims process for claims involving either service members in the process of being discharged or recently discharged veterans?

- Excellent
- Good
- Satisfactory
- Fair
- Poor
- No BDD at this Regional Office

36. And how would you rate the coordination between this VBA Regional Office and the National Personnel Records Center during the claims process for claims involving veterans who were discharged at least several years ago?

- Excellent
- Good
- Satisfactory
- Fair
- Poor

37. In your opinion, what is the emphasis on **accuracy** of deciding claims at this Regional Office?

- There is too much emphasis on accuracy
- There is somewhat too much emphasis on accuracy
- There is about the right amount of emphasis on accuracy
- There is somewhat not enough emphasis on accuracy
- There is not enough emphasis on accuracy
- No opinion; Not sure; Don't know

SECTION 6. Your Overall Assessment Of The Rating Process

46. The claims rating process is often said to be a mixture of medical (clinical) and legal (statutory or regulatory) considerations. Based on your overall experience as an accredited VSO claims representative, which type of consideration do you feel is typically the most difficult to satisfactorily resolve?
- Medical
 - Legal
 - They are equally difficult to resolve
47. In your overall experience as an accredited VSO claims representative, would you say that over the past several years it has been getting more difficult or less difficult to establish *original service connection* for a typical claim involving a **physical** issue?
- Definitely more difficult
 - Somewhat more difficult
 - No significant change
 - Somewhat less difficult
 - Definitely less difficult
48. Again in your overall experience as an accredited VSO claims representative, would you say that over the past several years it has been getting more difficult or less difficult to achieve a satisfactory rating in a claim for an *increased evaluation* involving a **physical** issue?
- Definitely more difficult
 - Somewhat more difficult
 - No significant change
 - Somewhat less difficult
 - Definitely less difficult
49. In your overall experience as an accredited VSO claims representative, would you say that over the past several years it has been getting more difficult or less difficult to establish *original service connection* for a typical claim involving a **mental health** issue?
- Definitely more difficult
 - Somewhat more difficult
 - No significant change
 - Somewhat less difficult
 - Definitely less difficult

NATIONAL VSO SURVEY

50. Again in your overall experience as an accredited VSO claims representative, would you say that over the past several years it has been getting more difficult or less difficult to achieve a satisfactory rating in a claim for an *increased evaluation* involving a **mental health** issue?

- Definitely more difficult
- Somewhat more difficult
- No significant change
- Somewhat less difficult
- Definitely less difficult

51. In your overall experience as an accredited VSO claims representative, would you say that veterans typically have realistic or unrealistic expectations of:

	<u>Very Realistic</u>	<u>Somewhat Realistic</u>	<u>Neither Realistic nor Unrealistic</u>	<u>Somewhat Unrealistic</u>	<u>Very Unrealistic</u>
a. The disability rating process.....	[]	[]	[]	[]	[]
b. The disability benefit they should receive.....	[]	[]	[]	[]	[]

52. Finally, is there anything else you would like to say regarding the claims rating and decision process in general or at your current Regional Office in particular?

Thank you for your participation in this survey! The Veterans' Disability Benefits Commission greatly appreciates it.
