Your 2007 Economic Census report form is enclosed.

The Economic Census is essential to business and government decision making. It is the major source of facts about the structure and functioning of the economy and the foundation for most measures of economic performance. Conducted every 5 years, the Economic Census uses information about your business and others to provide reliable data for your industry and geographic area.

**Please complete and return your census form by February 12, 2008.**

You may use reasonable estimates if book figures are not readily available. Title 13, United States Code, **requires your response** to the Economic Census and guarantees that your response is confidential and will be used only for statistical purposes.
