

Attachment 2b: Reinterview Questionnaire

Hello, This is from the U.S.Census Bureau.

Our records show that one of our interviewers, (interviewer name), recently contacted your household.

We're doing a short quality control check to make sure that our interviewers are following correct procedures.

As for the original interview, all information collected will be kept strictly confidential.

Can you or another household member answer a few questions to help us evaluate the interviewer's work?

- 1 Yes
- 2 No
- 3 Inconvenient time. Try again later

We expect this interview to take about five minutes. We have limited questions in this survey to those essential to current policy initiatives. If you have any comments about this survey, please send them to :

Attachment 2b: Reinterview Questionnaire

3 Don't you have anything better to do with my tax dollars? I'm too busy to answer your questions again.

4 Are you "checking up" on me? I told you the truth the first time you called.

5 Do I have to answer your questions?

6 Who sees my answers?

7 Return to Reinterview.

Why are you calling me again?

Like any business, we're interested in maintaining the quality of our product, so each month we reinterview a few households who are in the survey to ensure we are efficiently and accurately collecting data.

Are you calling everyone or am I just lucky?

We are able to get a reliable measure of data quality by reinterviewing only a small percentage of the total households interviewed in the survey.

Don't you have anything better to do with my tax dollars?
I'm too busy to answer your questions again.

The National Center for Health Statistics, other federal agencies, and businesses will use the data to assess the health services people receive. The Census Bureau feels a strong need for an independent measure of its quality. As a result, we feel that the results from our reinterview are a wise use of our tax dollars.

Are you "checking up" on me?
I told you the truth the first time you called

The purpose of reinterview is not to check up on respondents. In order to ensure that we are efficiently and accurately collecting data, we reinterview a few households who are in the survey.

Do I have to answer all your questions?

Your participation in this survey is voluntary. However, the information you provide will help us to ensure the efficiency and accuracy of our data collection procedures. Like any business, we're interested in maintaining the quality of our product.

Who sees my answers?

We want to reassure you that your confidentiality is completely protected. We conduct this survey under the authority of Title 13, United States Code, Sections 8 and 9. As required by Title 13, only sworn Census Bureau employees who have taken an oath to protect your confidentiality will see the actual responses. The penalties for violating this oath include jail and substantial fines.
