Re: Responses to public comments on CMS-10185, 2007 Part D Reporting  
Requirements

---

In response to the Federal Register posting of document CMS-10185 2007 Part D Reporting Requirements on September 22, 2006, we received three public comments by the October 22, 2006 deadline.

The comments may be tabulated as follows:

- 1 comment to Pharmacy & Therapeutics (P&T) committee reporting requirements
- 1 comment to Call center reporting requirements
- 1 comment to Licensure & Solvency, Business Transactions, and Financial Requirements reporting requirements

Please see the attached document, Responses\_2007 Part D Reporting Requirements\_112006.doc, which provides a summary of comments and our responses. Additionally, please see the attached document, Final 2007 Medicare Part D Reporting Requirements\_revised112006.doc, which reflects two changes made as a result of the P&T and Call center comments received. Both changes will provide additional reporting flexibility for Part D contracts, and will not impact the number of hours associated with this data collection.

Please contact me at [Alice.Leemartin@cms.hhs.gov](mailto:Alice.Leemartin@cms.hhs.gov) or 410 786-1103 if you have any questions. Thank you for your assistance.
