Comments on 2007 Part D Reporting Requirements

From VIVA Health, Inc. contract R0154
Contact: Libba Yates, (205) 358-7406

Section VI. Pharmacy & Therapeutics. Our plan delegates the P&T committee function to our PBM. Our PBM keeps the names of the P&T members in strict confidence to allow them to make objective decisions. In the past they've been allowed to provide committee membership information directly to CMS on behalf of the Part D plans they provide P&T for. We ask that this direct reporting by the PBM be allowed to continue.

Section IX. On time to process standard redeterminations, should this be days rather than hours? The compliance timeframe is stated in days

Section X. Call Center Measures. Our PBM provides the pharmacy support line. This line is dedicated to Part D but not our particular plan. Therefore, we will only be able to report aggregate data for the Part D plans our PBM represents unless we require that a separate line be established for our plan only. To require this would increase costs for the PBM (and in turn us) and would make life harder on the already drowning pharmacists (would have to have a different # for each plan even if the plans utilize the same PBM). We ask that the Part D pharmacy line information be able to be reported at the Part D Plans level (versus our specific plan)

I just got my comments returned to me by DHL. Handwritten on the side they put "need building". I used the address provided in the June 21st memo from Gary Bailey. I was just wondering if this happened to other plans and, if so, if CMS is making any accommodations. Could I fax you our comments?
