Information Collection Request

1. Title: Nondestructive Testing of Certain Cargo Tanks on Unmanned Barges.

OMB Control Number: 1625-0052.

Summary: The Coast Guard uses the results of nondestructive testing to evaluate the suitability of older pressure-vessel-type cargo tanks of unmanned barges to remain in service. Once every 10 years it subjects such a tank, on an unmanned barge 30 years old or older, to nondestructive testing.

Need: Under 46 U.S.C. 3703, the Coast Guard is responsible for ensuring safe shipment of liquid dangerous cargoes and has promulgated regulations for certain barges to ensure the meeting of safety standards.

Respondents: Owners of tank barges.

Frequency: Every 10 years.

Burden Estimate: The estimated burden has increased from 72 hours to 104 hours a year.

2. Title: Small Passenger Vessels--Title 46 CFR Subchapters K and T.

OMB Control Number: 1625-0057.

Summary: These information requirements are necessary for the proper administration and enforcement of the program on safety of commercial vessels as it affects small passenger vessels. The requirements affect small passenger vessels (under 100 gross tons) that carry more than 6 passengers.

Need: Under the authority of 46 U.S.C. 3305 and 3306, the Coast Guard prescribed regulations for the design, construction, alteration, repair and operation of small passenger vessels to secure the safety of individuals and property on board. The Coast Guard uses the information in this collection to ensure compliance with the requirements in 46 CFR subchapters K and T.

Respondents: Owners and operators of small passenger vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 366,798 hours to 353,263 hours a year.

3. Title: Offshore Supply Vessels--Title 46 CFR Subchapter L.

OMB Control Number: 1625-0065.

Summary: Title 46 U.S.C. 3305 and 3306 authorizes the Coast Guard to prescribe safety regulations. Title 46 CFR subchapter L contains marine safety regulations for offshore supply vessels (OSVs).

Need: The OSV posting/marking requirements are needed to provide instructions to those on board of actions to be taken in the event of an emergency. The reporting/recordkeeping requirements verify compliance with regulations without Coast Guard presence to witness routine matters, including OSVs based overseas as an alternative to Coast Guard reinspection.

Respondents: Owners and operators of vessels.

Frequency: On occasion.

Burden Estimate: The estimated burden has decreased from 6,175 hours to 6,169 hours a year.

Dated: July 6, 2006.

Rear Admiral, U.S. Coast Guard, Assistant Commandant for Command,
Control, Communications, Computers and Information Technology.
