QUESTIONS

If you have any questions about Form EIA-803 after reading the instructions, please contact the Form Manager at (202) 586-9612 or (202) 586-4522.

PURPOSE

The Energy Information Administration (EIA) Form EIA-803, "Weekly Crude Oil Stocks Report," is used to collect data on end-of-week stocks of crude oil. The data appear on EIA's website at www.eia.doe.gov and in the EIA publication, *Weekly Petroleum Status Report*.

WHO MUST SUBMIT

The Form EIA-803 is mandatory pursuant to Section 13(b) of the Federal Energy Administration Act of 1974 (Public Law 93-275) and must be completed by companies selected by EIA which carry or store 1,000 barrels or more of crude oil. Included are:

- gathering and trunk pipeline companies (including interstate, intrastate, and intracompany pipelines),
- crude oil producers,
- terminal operators,
- storers of crude oil (except refineries), and
- transporters of Alaskan crude oil by water in the 50 States and the District of Columbia.

Companies are selected into the EIA weekly sample according to a procedure that assures coverage of 90 percent of each information element.

WHEN TO SUBMIT

The Form EIA-803 must be received by the EIA by 5 p.m. EST on the Monday following the end of the report period (e.g., the "Weekly Crude Oil Stocks Report" covering the week ending January 12, 2007 must be received by 5 p.m. EST January 15, 2007).

HOW TO SUBMIT

Instructions on how to report via fax, secure file transfer, or e-mail are printed on PART 2 of Form EIA-803.

- Secure File Transfer: This form may be submitted to the EIA by fax, e-mail, or secure file transfer. Should you choose to submit your data via e-mail or facsimile, we must advise you that e-mail and facsimile are insecure means of transmission because the data are not encrypted, and there is some possibility that your data could be compromised. You can also send your Excel files to EIA using a secure method of transmission: HTTPS. This is an industry standard method to send information over the web using secure, encrypted processes. (It is

the same method that commercial companies use to communicate with customers when transacting business on the web.) To use this service, we recommend the use of Microsoft Internet Explorer 5.5 or later or Netscape 4.77 or later. Send your surveys using this secure method to: <https://idc.eia.doe.gov/upload/noticeoog.jsp>.

- Electronic Filing Option: The PC Electronic Data Reporting Option (PEDRO) is a Windows-based application that will enable you to enter data interactively, import data from your own database, validate your data online, and transmit the encrypted data electronically to EIA via the Internet or a dial-up modem. If you are interested in receiving this free software, contact the Electronic Data Collection Support Staff at (202) 586-9659.

SPECIFIC INSTRUCTIONS

PART 3. CRUDE OIL STOCKS

Quantities: Report using the following criteria.

- Report all quantities to the nearest whole number in **thousand barrels** (42 U.S. gallons/barrel). Quantities ending in 499 or less are rounded down, and quantities ending in 500 or more are rounded up (e.g., 106,499 barrels are reported as 106 and 106,500 barrels are reported as 107).
- Enter "0" if the quantity for which you usually report data is zero. Shaded cells on the form are those in which data are not currently required to be reported.
- Report all stocks in the **custody** of the refinery regardless of ownership. Reported stock quantities should represent actual measured inventories.
- Stocks as of 7 a.m. EST Friday, which is the end of the report period should be reported corrected to 60 degrees Fahrenheit (°F) less basic sediment and water (BS&W).
- Report all domestic and foreign stocks held in the custody of your company and in transit thereto, except those in transit by pipelines which you do not operate. Include foreign stocks only after entry through Customs. Exclude stocks of foreign origin held in bond.

For purposes of this report, "after entry through Customs" is said to occur on:

- the "entry date" specified on the U.S. Customs Form CF7501, "Entry Summary;" or

- the "date of withdrawal conditionally free of duty" specified on U.S. Customs Form CF 7501, "Entry Summary;" or
- the "import date" specified on the U.S. Customs Form 214, "Application for Foreign Trade Zone Admission and/or Status Designation;" or
- the "date of exportation" specific on the U.S. Department of Commerce Form 7525-V, "Shipper's Export Declaration," for shipments from Puerto Rico to the 50 States and the District of Columbia.

Crude Oil Stocks (Code 050) - Report all domestic and foreign crude oil stocks held in pipelines and tank farms, (associated with the pipelines), terminals and on leases operated by the reporting company in each PAD District. Report crude oil stocks held at refineries on Form EIA-800, "Weekly Refinery Report."

Cushing, Oklahoma Stocks (Code 053) - Report all domestic and foreign crude oil stocks held in tank farms operated by the reporting company in the Oklahoma counties of **Lincoln, Payne, and Creek.**

Alaskan Crude Oil in Transit by Water (Code 092) - Report all Alaskan Crude oil stocks in transit by water between Alaska and the other States, the District of Columbia, Puerto Rico, and the Virgin Islands. Include stocks held at transshipment terminals in Alaskan Crude Oil in Transit (Code 092) rather than in PAD District V stocks. These stocks must be reported by the transporting company having custody of the stocks. Do not include these quantities in Code 050.

Use Table 1 to determine the PAD District classification of each State.
