

List of Changes
For Audience and Program Research Activity
For Broadcasting Board of Governors,
Office of Cuba Broadcasting (OCB)
OMB No. 3112-0001

- The number of respondents will decrease from 748 per year to 448, primarily because the field surveys will be done only once per year, rather than twice per year.
- The estimated total cost to the government will increase from \$69,000 to \$110,000, based upon actual cost experience to perform the surveys and subsequent analysis of the data.
- The surveys will now be conducted annually rather than semi-annually.
