AQUACULTURED LIVE ROCK LOG REPORT

A person with an aquacultured live rock permit must report each deposition of material on a site. A person who takes aquacultured live-rock that is landed other than in Florida must submit a report of harvest. These reports must be submitted to the address below not later than 7 days after deposition or harvest.

Southeast Regional Office
9721 Executive Center Drive N.
St. Petersburg, FL 33702

GENERAL INSTRUCTIONS

1. Type or print legibly in ink. Incomplete or unreadable reports will be returned.
2. A person with an aquacultured live rock permit must report to the Regional Director each deposition of material on a site. Reports must be postmarked not later than 7 days after deposition and must contain the following information: (1) permit number of site and date of deposit; (2) geological origin of material deposited; (3) amount of material deposited; (4) source of material deposited, that is, where obtained, if removed from another habitat, or from whom purchased.
3. A person who takes aquacultured live rock that is landed in Florida, must submit Florida trip tickets as required by Florida statutes and regulations.
4. A person who takes aquacultured live rock that is landed other than in Florida, must submit a report of harvest to the Regional Director.
5. Questions may be telephoned to (813) 570-5326.
6. Mail the completed report to:
**National Marine Fisheries Service
9721 Executive Center Drive N., F/SEO11
St. Petersburg, FL 33702.**
7. Rocks deposited on the aquaculture site must be geologically or otherwise distinguishable from the naturally occurring substrate or they must be indelibly marked or tagged.
8. All rocks must be placed on the site by hand, or lowered completely to the bottom by crane. Deposited materials shall not be allowed to "free fall" to the bottom, and all deposition shall occur while the vessel is "at anchor". Rocks may not be placed over naturally occurring reef outcrops, limestone ledges, coral reefs, or vegetated areas. A minimum setback of 50 feet must be maintained from naturally vegetated or hard bottom habitats. The actual configurations and locations of the deposited materials and the distance from existing naturally occurring hard bottom habitat and submerged aquatic vegetation shall be clearly depicted.
9. All materials used in aquaculture operations must be nontoxic and all deposited rocks must be free of contaminants and non-indigenous flora and/or fauna.
10. Harvest of aquacultured live rock shall be by hand only; no mechanical dredging, drilling, blasting, etc. is authorized under this general permit.

REPORT INSTRUCTIONS

1. Enter name of permit holder, address and permit number of site.
2. **DEPOSIT INFORMATION:** Enter source name, source address, geological origin, deposit date, pounds deposited and size.
3. **HARVEST INFORMATION:** Enter dealer name, dealer address, dealer Federal ID number, landing date, pounds harvested, unit price and dollar value.
4. The report must be signed by the preparer.

Public reporting burden for this collection of information is estimated to average 15 minutes per response including the time for reviewing the instructions, searching the existing data sources, gathering and maintaining the data needed, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspects of this burden to Robert Sadler, National Marine Fisheries Service, 9721 Executive Center Drive N., St. Petersburg, Florida 33702. This reporting is required under and is authorized under 50 CFR 622.5(d)(2). Information submitted will be treated as confidential in accordance with NOAA Administrative Order 216-100. Notwithstanding any other provision of the law, no person is required to respond to, nor shall any person be subject to a penalty for failure to comply with, a collection of information subject to the requirements of the Paperwork Reduction Act, unless that collection displays a currently valid OMB Control Number. The NMFS requires this information for the conservation and management of marine fishery resources. This data will be used to monitor the quota for this fishery.
