(5) Which category most accurately reflects your company?

We don't currently have a formal compliance program but are interested in learning about what developing a program entails.

We are just beginning to develop a formal compliance program and need to know how to get started and what to include in our program.

We have a formal compliance program, but no written compliance manual and need to know what to include in our compliance manual.

We have both a formal compliance program and a written compliance manual and just want to make sure we have all of our bases covered.

(6) Does your company use an automated software program to conduct order processing and/or conduct screening of your export transactions?

Yes No Order Processing
 Yes No Screening

If yes, what program(s)?

If no, are you interested in obtaining information about export software programs?

(7) Does your company use SNAP to submit export applications?

Yes No

(8) What are your primary reasons for attending this seminar – what do you most need to learn about or what aspect of your compliance program do you need the most help with? How can we help?

(9) Do you have any special requirements we should be aware of that would help us make your training experience more enjoyable and beneficial?

(10) Would you like someone from our office to contact you within a month to follow-up and provide assistance to you on your compliance development efforts?

Yes No

(11) Do you have any questions for us or need clarification on any of the material covered in the Seminar?

(12) How can we be of further service?
