Estimated Data Reporting

Number of Women Screened for Program Years 1991–2005

Among NBCCEDP Participants

Total number of women ever screened = 2,613,192

Screened indicates that a woman received at least one Program Pap test, mammogram, or CBE in the program year

Source: October 2005 Minimum Data Elements for screenings through 06/30/2005 paid with NBCCEDP funds

Program year (PY) is defined as July 1 through June 30. For example, 'PY04' represents July 1, 2003 – June 30, 2004.
