

Apply for Benefits

Enter Estimate Status for <variable plan name>

When you apply for your pension, PBGC must give you a benefit estimate that shows the amount you are entitled to in each of the benefit forms that is available to you for the date you plan to retire. If you are married, one of the estimates you request must show your spouse as the beneficiary even if you do not plan on taking a benefit that pays survivor benefits or you plan on designating someone other than your spouse as your beneficiary. This is required so that you and your spouse can make an informed decision when you elect the benefit form you want to receive. Please check the option below that applies to you:

- Yes** I have received a benefit estimate as described above from PBGC
- No** I have not received a benefit estimate as described above from PBGC

If you are not sure that you have received a "benefit estimate" as described above for your planned retirement date, please call our Customer Contact Center at 1-800-400-7242
