DEPARTMENT OF EDUCATION**Submission of Data by State Educational Agencies**

AGENCY: National Center for Education Statistics, Institute of Education Sciences, Department of Education.

ACTION: Notice of dates of submission of State revenue and expenditure reports for fiscal year 2003 and of revisions to those reports.

SUMMARY: The Secretary of Education announces dates for the submission by State educational agencies (SEAs) of expenditure and revenue data and average daily attendance statistics on ED Form 2447 (the National Public Education Financial Survey) for fiscal year (FY) 2003. The Secretary sets these dates to ensure that data are available to serve as the basis for timely distribution of Federal funds. The U.S. Bureau of the Census is the data collection agent for the National Center for Education Statistics (NCES). The data will be published by NCES and will be used by the Secretary in the calculation of allocations for FY 2005 appropriated funds.

DATES: The date on which submissions will first be accepted is March 15, 2004. The mandatory deadline for the final submission of all data, including any

revisions to previously submitted data, is September 7, 2004.

ADDRESSES AND SUBMISSION INFORMATION: SEAs may mail ED Form 2447 to: Bureau of the Census, ATTENTION: Governments Division, Washington, DC 20233-6800.

SEAs may submit data via the World Wide Web using the interactive survey form at <http://www.census.gov/govs/www/npefs.html>. If the Web form is used, it includes a digital confirmation page where a pin number may be entered. A successful entry of the pin number serves as a signature by the authorizing official. A certification form may also be printed from the Web site, and signed by the authorizing official and mailed to the Governments Division of the Bureau of the Census, at the address listed in the previous paragraph. This signed form must be mailed within five business days of web form data submission.

Alternatively, SEAs may hand deliver submissions by 4 p.m. (Eastern Time) to: Governments Division, Bureau of the Census, 8905 Presidential Parkway, Washington Plaza II, room 508, Upper Marlboro, MD 20772.

If an SEA's submission is received by the Bureau of the Census after September 7, 2004, in order for the submission to be accepted, the SEA must show one of the following as proof that the submission was mailed on or before the mandatory deadline date:

1. A legibly dated U.S. Postal Service postmark.
2. A legible mail receipt with the date of mailing stamped by the U.S. Postal Service.
3. A dated shipping label, invoice, or receipt from a commercial carrier.
4. Any other proof of mailing acceptable to the Secretary.

If the SEA mails ED Form 2447 through the U.S. Postal Service, the Secretary does not accept either of the following as proof of mailing:

1. A private metered postmark.
2. A mail receipt that is not dated by the U.S. Postal Service.

Note: The U.S. Postal Service does not uniformly provide a dated postmark. Before relying on this method, an SEA should check with its local post office.

FOR FURTHER INFORMATION CONTACT: Ms. Sharon J. Meade, Chief, Bureau of the Census, ATTENTION: Governments Division, Washington, DC 20233-6800. Telephone: (301) 763-7316. If you use a telecommunications device for the deaf (TDD), you may call the Federal Information Relay Service (FIRS) at 1-800-877-8339.

Individuals with disabilities may obtain this document in an alternative

format (*e.g.*, Braille, large print, audiotape, or computer diskette) on request to: Frank Johnson, National Center for Education Statistics, Institute of Education Sciences, U.S. Department of Education, Washington, DC 20208-5651. Telephone: (202) 502-7362.

SUPPLEMENTARY INFORMATION: Under the authority of section 153(a)(1)(I) of the Education Sciences Reform Act of 2002 (P.L. 107-279), 20 U.S.C. 9543, which authorizes NCES to gather data on the financing of education, NCES collects data annually from SEAs through ED Form 2447. The report from SEAs includes attendance, revenue, and expenditure data from which NCES determines the average State per pupil expenditure (SPPE) for elementary and secondary education, as defined in the Elementary and Secondary Education Act of 1965, as amended (ESEA) (currently 20 U.S.C. 7801(2)).

In addition to utilizing the SPPE data as general information on the financing of elementary and secondary education, the Secretary uses these data directly in calculating allocations for certain formula grant programs, including Title I of the ESEA, Impact Aid, and Indian Education. Other programs such as the Educational Technology State Grants program (Title II, Part D), the Education for Homeless Children and Youth Program under Title VII of the McKinney-Vento Homeless Assistance Act, the Teacher Quality State Grants (Title II, Part A) Program, and the Safe and Drug-Free Schools and Communities (Title IV, Part A) Program make use of SPPE data indirectly because their formulas are based, in whole or in part, on State Title I allocations.

In January 2004, the Bureau of the Census, acting as the data collection agent for NCES, will mail to SEAs ED Form 2447 with instructions and request that SEAs submit data to the Bureau of the Census on March 15, 2004, or as soon as possible thereafter. SEAs are urged to submit accurate and complete data on March 15, or as soon as possible thereafter, to facilitate timely processing. Submissions by SEAs to the Bureau of the Census will be checked for accuracy and returned to each SEA for verification. All data, including any revisions, must be submitted to the Bureau of the Census by an SEA not later than September 7, 2004.

Having accurate and consistent information on time is critical to an efficient and fair allocation process and to the NCES statistical process. To ensure timely distribution of Federal education funds based on the best, most accurate data available, NCES

establishes, for allocation purposes, September 7, 2004, as the final date by which the NPEFS web form or ED Form 2447 must be submitted. However, if an SEA submits revised data after the final deadline that results in a lower SPPE figure, its allocations may be adjusted downward or the Department may request the SEA to return funds. SEAs should be aware that all of these data are subject to audit and that, if any inaccuracies are discovered in the audit process, the Department may seek recovery of overpayments for the applicable programs. If an SEA submits revised data after September 7, 2004, the data may also be too late to be included in the final NCES published dataset.

DEPARTMENT OF ENERGY

National Energy Technology Laboratory; Notice of Availability of a Funding Opportunity Announcement

AGENCY: National Energy Technology Laboratory, Department of Energy (DOE).

ACTION: Notice of availability of a funding opportunity announcement.

SUMMARY: Notice is hereby given of the intent to issue funding opportunity announcement no. DE-PS26-04NT42092 entitled "Solid State Lighting Core Technologies". The Department of Energy (DOE), National Energy Technology Laboratory (NETL),

on behalf of the Office of Energy Efficiency and Renewable Energy (EERE), announces that it intends to conduct a competitive funding opportunity announcement. DOE has set aggressive goals for solid state lighting (SSL) research and development: by 2015, to develop advanced solid state lighting technologies that, compared to conventional lighting technologies, are much more energy efficient, longer lasting, and cost-competitive. The SSL operational plan features two avenues: core technology research and product development. The core technology program will focus on breakthrough technologies that are typically longer-term in nature. These technology breakthrough projects will enable the product development organizations to continue their development process in parallel in order to advance the SSL technology and meet the goals of the program. Subject to approval of an exceptional circumstance determination pursuant to the Bayh-Dole Act, (covering inventions of small business, non-profit and educational institutions) core technology project recipients will be required to enter into good faith negotiations intended to lead to the licensing of inventions conceived or first actually reduced to practice under the project to product development organizations on a non-exclusive, royalty bearing basis for a defined field of use. In addition, DOE plans to competitively solicit a SSL Partnership composed of manufacturers and allies that broadly represent the industry. The partnership will, among other things, provide input and prioritization of the core technology needs.

The intent of this announcement is to solicit and receive applications for the core technology research area. This research will support multiple enabling or fundamental solid state lighting technology areas for general illumination applications. Applications should support the established mission of the 2003 Solid State Lighting Workshop (<http://www.netl.doe.gov/ssl/>) held in Washington, DC in November 2003. Applications will be subjected to a comprehensive technical review and awards will be made to a select number of applicants based upon the evaluation criteria, relevant program policy factors, and the availability of funds.

DATES: The funding opportunity announcement will be available on the "Industry Interactive Procurement System" (IIPS) Web page located at <http://e-center.doe.gov> on or about February 27, 2004. Applicants can obtain access to the funding opportunity announcement from the address above

or through DOE/NETL's Web site at <http://www.netl.doe.gov/business>. Questions and comments regarding the content of the announcement should be submitted through the "Submit Question" feature of IIPS at <http://e-center.doe.gov>. Locate the announcement on IIPS and then click on the "Submit Question" button. You will receive an electronic notification that your question has been answered. Responses to questions may be viewed through the "View Questions" feature. If no questions have been answered, a statement to that effect will appear. FOR FURTHER INFORMATION CONTACT: Sue Miltenberger, MS 107, U.S. Department of Energy, National Energy Technology Laboratory, P.O. Box 880, 3610 Collins Ferry Road, Morgantown, WV 26507-0880. E-mail address: Susan.Miltenberger@netl.doe.gov; telephone number: (304) 285-4083.

SUPPLEMENTARY INFORMATION: It is anticipated that \$6.0 million of Federal funding will be available for awards under this program. The anticipated funding would be available over multiple Federal fiscal years. Three to six awards are expected to be made in the fourth quarter of Fiscal Year 2004. Consistent with the recommendations and conclusions of the November 2003, Solid State Lighting Workshop, applications will be considered in the following areas: *Topic Area 1—Inorganic*; Subtopic (1a) High efficiency visible and near UV (>380nm) semiconductor materials for LED based on general illumination technology; Subtopic (1b) Advanced architecture and high power conversion efficiency emitters; Subtopic (1c) High temperature, efficient, long-life phosphors, luminescent materials for wavelength conversion and encapsulants; *Topic Area 2—Organic*; Subtopic (2a) High efficiency, low voltage, stable materials for OLED-based general illumination technology (hosts, dopants, and transport layers); Subtopic (2b) Strategies for improved light extraction and manipulation; and Subtopic (2c) Novel device structures for improved performance and low cost. Only research that is consistent with these needs and represents fundamental advancements in the price and performance relationship for solid state lighting for general illumination applications will be considered for award.

Once released, the funding opportunity announcement will be available for downloading from the IIPS

INFORMATIONAL REPORT

FALL 2003 EIAC MEETING
WASHINGTON, D.C.
OCTOBER 6 - 8, 2003

GENERAL STATISTICS SUBCOMMITTEE

CO-CHAIR: JANET CHRISTOPHER

CO-CHAIR: MIKE COX

AGENDA ITEM: Science and Math Indicators

ROLF BLANK, DOREEN LANGESEN FROM CCSSO

PRESENTATION SUMMARY: Rolf gave the committee copies of the latest published report (2001), a copy of the memo to be sent to the Chiefs explaining the purpose of the survey, the production schedule and the schedule of expected responses from each state. He said that an avenue for feedback on this report was available on the web. The indicators and format of the request have not changed, so no action was required

SUB-COMMITTEE COMMENTS: The committee asked if the trend data for all states could be made available. The web was mentioned as a possible way this request could be met. Also the committee asked if there were any plans to merge this data with PBDMI. The response was that PBDMI was a function of the US Department of Education and that no plans were being made to incorporate data from other sources,

SUB-COMMITTEE ACTION: Informational session only. No action taken.

AGENDA ITEM: FRSS Update

LAURIE LEWIS FROM WESTAT

PRESENTATION SUMMARY: Three surveys previously review are either in the field or are about to be: "Internet Access in Public School, Fall 2003", "Dual Credit and Exam-Based Courses" and Distance Education Courses for Public Elementary and Secondary School Students: 2002-2003". Also Laurie gave the committee the status on nine FRSS and PEQIS surveys as of October 2003. No new surveys are being prepared at this time since the current contract is about to run out.

SUB-COMMITTEE COMMENTS: The committee asked why EIAC approval was no longer mentioned in the letters to the states, schools and districts when a survey was sent out. The committee requested that the EIAC reference be returned to at least the state letter.

SUB-COMMITTEE ACTION: Informational session only. No action taken.

AGENDA ITEM: Review of CCD Changes

JOHN SIETSEMA, BETH YOUNG, LEE HOFFMAN FROM NCES

PRESENTATION SUMMARY:

Proposed changes to the Non-fiscal CCD for 2005-2007 OMB clearance requiring action:

1. Flag indicating a shared time school.
2. FTE teachers by racial/ethnic category and gender.
3. Response options increased to include planned schools, inactive schools and schools outside municipal boundaries.

In addition, three other changes were presented:

1. Modified definition of Vocational School
2. GED information will no longer be collected from the states.
3. Previous year data for closed schools and districts will be accepted for migrants, completers and dropouts.

The proposed changes to the fiscal CCD (NPEFS), require salaries paid to teachers to be reported by program codes for regular education, special education, vocational education and by other PK-12 programs. A cosmetic change was made to item "f" of section XII to change the wording so it will reflect the current law.

SUB-COMMITTEE COMMENTS: Please note that the changes to the CCD do not include a change to the current way of collecting racial/ethnic data.

SUB-COMMITTEE ACTION: Recommend approval of proposed changes.

AGENDA ITEM: EDEN Supplemental Collection Tool

BARBARA TIMM, PETER MCCABE

PRESENTATION SUMMARY: OCR proposes to use PBDMI (EDEN) for bulk of their data requirements. Data not supplied through EDEN would be collected through the supplemental tool. OCR wants to have OMB give them the ability to craft the surveys without OMB clearance.

SUB-COMMITTEE COMMENTS: The committee would like to see and approve the data items that would be requested through this tool.

SUB-COMMITTEE ACTION: Informational session only. No action taken.

AGENDA ITEM: Key State Policy Survey and Accountability Systems Profiles

ROLF BLANK, ABBY POTTS FROM CCSSO

PRESENTATION SUMMARY: The Key State Policy is a continuing activity. Rolf gave us copies of the latest publication (2002) and told us about the collection for 2004. CCSSO will email a draft copy of the questions to subcommittee members, if desired. Surveys will be sent out in January or February. The report will be published in the fall of 2004. CCSSO is open to changes in this survey and welcomes input about new categories and the deletions of categories that are no longer important.

Rolf also presented information about the website for State Accountability Profiles. These were distilled from the accountability plan workbooks submitted by the states for NCLB. The URL for the site is <http://ccsso.doceus.com/results/index.cfm>. The site is dynamic with states being

able to update the information by password access. There will be links to state sites especially NCLB report cards.

SUB-COMMITTEE COMMENTS: Tom Ogle suggested that the Chiefs should be polled about hot topics. Topics suggested included virtual schools, scholarship and graduation requirements and types of diplomas awarded.

SUB-COMMITTEE ACTION: Informational Session only – no action taken.

AGENDA ITEM: PBDMI Guidance

BARBARA TIMM, JOHN NORRIS AND LINDA MERCHLINSKY FROM SAIC

PRESENTATION SUMMARY: Barbara Timm presented the requirements for the pilot collection for PBDMI . These included the necessity for real data, all of the directory data and the definition of a transmittal. The results from the pilot are to be presented at the February MIS Conference. Communication will be handled through “State Assigned Contacts”. Linda Merchlinsky presented a powerpoint mockup of the screens used for transmission and editing the data transmitted.

SUB-COMMITTEE COMMENTS: The committee requested that the screens be made available to the General Statistics Task Force for comments and recommendations.

SUB-COMMITTEE ACTION: Informational Session only – no action taken.

AGENDA ITEM: S&P Data Collection Template

KIM SMITH, PAUL GIZZERO, JACKIE LANE

PRESENTATION SUMMARY: Representatives from S&P gave a broad overview of the School Information Partnership (SIP) and SES 50 (School Evaluation Services). The data would be retrieved from PBDMI and other sources such as the Census Bureau and the American Institute for Research. States would be asked for additional information. The states may decline this request. The data would be made available on the web in formats that were not demonstrated today.

SUB-COMMITTEE COMMENTS: Many committee members were concerned about misuse and misinterpretation of the data, confidentiality issues and unwarranted comparisons of schools, districts and states.

SUB-COMMITTEE ACTION: Informational Session only – no action taken.

Appendix D: Fiscal and Nonfiscal CCD Glossaries

Glossary

National Public Education Financial Survey, 2004–2005

Average Daily Attendance: average resident attendance is defined by state law or regulations. In the absence of such laws and regulations, average daily attendance (ADA) should be the sum of the counts of resident students attending public school each day of the school year, divided by the number of days school was in session during the school year. Students who reside in one state and attend public school in another state should be counted in the state where they reside.

CCD: the Common Core of Data, the National Center for Education Statistics – the primary database on public elementary and secondary education in the United States. Data are collected annually from states' administrative records.

Community services: a functional category of expenditures (line item number 3300) for such services as swimming pools, day care centers, and programs for the elderly. Community services expenditures reported in this publication are funds for the use of these services by public education students. (Variable names: E81 and E82.)

Current expenditures: comprise the functional categories instruction (1000), support services (2000), and non-instructional services (3000). These are expenditures for the day-to-day operation of public elementary and secondary education, distinct from long-term expenditures and expenditures for other types of education. Property expenditures are excluded from current expenditure subtotals. (Subtotals STE1, STE2T, and STE3 sum to total TE5.)

Direct program support: expenditures made by state education agencies for, or on behalf of local education agencies. The majority of these expenditures are for teacher's retirement funds, the rest include expenditures for textbooks, busing, and special programs such as education for disabled students. Although states often report these expenditures in the appropriate function, these expenditures are sometimes lumped together under the heading direct program support, in which case NCES distributes them into function and object after consultation with state officials. Direct program support for public elementary and secondary education is reported as zero on the data file. (Variable names E4A1, E4A2, E4B1, E4B2, E4C1, E4C2, E4D, E4E1, E4E2, and subtotal STE4. NOTE: STE4 does not include E4A2, E4B2, E4C2, E4D, and E4E2.)

Glossary

Nonfiscal Common Core of Data 2004–2005

For CCD to have comparable data across states, all states must abide by the same standard definitions when reporting on schools, students, and staff. To ensure a common understanding, definitions for critical terms are presented below. The glossary contains definitions for all variables and terms found on the CCD school, agency, or state files. NB: Race and ethnicity definitions are in agreement with 1997 OMB directive. The CCD will follow 1997 definitions until informed that they can be changed.

Alternative Education School: A public elementary/secondary school that addresses needs of students which typically cannot be met in a regular school; provides nontraditional education; serves as an adjunct to a regular school; and falls outside of the categories of regular, special education, or vocational education.

American Indian/Alaskan Native: A person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Asian/Pacific Islander: A person having origins in any of the original peoples of the Far East, Southeast Asia, the Indian subcontinent, or the Pacific Islands. This area includes for example, Cambodia, China, India, Japan, Korea, Malaysia, Pakistan, the Philippine Islands, Thailand, Vietnam, Guam, the Philippine Islands, Samoa, and other Pacific Islands.

Black: A person having origins in any of the black racial groups of Africa.

Boundary Change: See “Operational Status, Agency” for definition. Name of term was changed to “Operational Status, Agency,” after 1997–98.

Charter School: A school providing free public elementary and/or secondary education to eligible students under a specific charter granted by the state legislature or other appropriate authority, and designated by such authority to be a charter school. Item was first collected in 1998–99.

Classroom Teacher: See “Teacher.”

Consolidated Statistical Area (CSA): If an area that qualifies as a metropolitan area (MA) has more than one million people, two or more core-based metropolitan statistical areas (CBSAs) may be defined within it. Each CBSA consists of a large urbanized county or cluster of counties (cities and towns in New England) that demonstrate very strong internal economic and social links, in addition to close ties to other portions of the larger area. When CBSA’s are established, the larger MA of which they are component

Glossary
Nonfiscal Common Core of Data 2004–2005

parts is designated a consolidated statistical area (CSA). CSAs and CBSA's are established only where local governments favor such designations for a large MA.

Core Based Statistical Area (CBSA): Each CBSA must contain at least one urban area of 10,000 or more population. Each metropolitan statistical area must have at least one urbanized area of 50,000 or more inhabitants. Each micropolitan statistical area must have at least one urban cluster of at least 10,000 but less than 50,000 population.

Under the standards, the county (or counties) in which at least 50 percent of the population resides within urban areas of 10,000 or more population, or that contain at least 5,000 people residing within a single urban area of 10,000 or more population, is identified as a "central county" (counties). Additional "outlying counties" are included in the CBSA if they meet specified requirements of commuting to or from the central counties. Counties or equivalent entities form the geographic "building blocks" for metropolitan and micropolitan statistical areas throughout the United States and Puerto Rico.

Diploma, High School: A formal document certifying the successful completion of a secondary school program prescribed by the state education agency or other appropriate body.

Diploma Recipient: A student who has received a diploma during the previous school year or subsequent summer school. This category includes regular diploma recipients and other diploma recipients.

District Locale Code: A code based upon the school locale codes to indicate the location of the district in relation to populous areas. (See also, "Large City," "Mid-size City," "Urban Fringe of Large City," "Urban Fringe of Mid-Size City," "Large Town," "Small Town," "Rural, outside CBSA," and "Rural, inside CBSA.")

Dropout: A student who was enrolled in school at some time during the previous school year; was not enrolled at the beginning of the current school year; has not graduated from high school or completed a state or district-approved educational program; and does not meet any of the following exclusionary conditions: has transferred to another public school district, private school, or state- or district-approved educational program; is temporarily absent due to suspension or school-approved illness; or has died. Item was first collected in 1992–93.

Does not include pupils enrolled in a class to learn a language other than English. Also Limited-English-Proficient students are individuals who were not born in the United States or whose native language is a language other than English; or individuals who come from environments where a language other than English is dominant; or individuals who are American Indians and Alaskan Natives and who come from environments where a language other than English has had a significant impact on their level of English language proficiency; and who, by reason thereof, have sufficient difficulty speaking, reading, writing, or understanding the English language, to deny such individuals the opportunity to learn successfully in classrooms where the language of instruction is English or to participate fully in our society. Item was first collected in 1998–99.

Federally-Operated Education Agency: A federally-operated agency that is charged, at least in part, with providing elementary and/or secondary instruction or support services.

high school education, and who may earn a high school equivalency certificate through achievement of satisfactory scores.

Grade Span Offered: The span of grades intended to be served by this school or agency, whether or not there are students currently enrolled in all grades. If a high school also has a prekindergarten program, the grade span of the high school is reported as a high school, not as a PK–12 school. For example, if a school has PK, 09, 10, 11, and 12 grades, the grade span will be reported as Grades 9 through 12 (0912). Also, the ungraded designation (UG) cannot be used in a grade span unless the whole school is ungraded students, and in this case the grade span is reported as UGUG. “Grade span” was calculated from school membership through 1997–98, and first collected as a separate item in 1998–99.

Graduate, High School: A high school graduate is defined as an individual who received a diploma recognizing the completion of secondary school requirements during the previous school year and subsequent summer school. It excludes high school equivalency and other high school completers (e.g., those granted a certificate of attendance).

The state applies its own standards in apportioning the aggregate of guidance counselors/ directors into the elementary and secondary level components.

Head Start Program: A federally funded program that provides comprehensive educational, social, health, and nutritional services to low-income preschool children and their families, and children from ages 3 to school entry age (i.e., the age of compulsory school attendance). Head Start students and teachers are reported on the CCD only when the program is administered by a local education agency.

High School Completion Count: A count of graduates and other high school completers including regular diploma recipients, other diploma recipients, and other high school completers. (The State Nonfiscal Survey also includes high school equivalency recipients in high school completion counts.)

High School Equivalency Certificate: A formal document certifying that an individual met the state requirements for high school graduation equivalency by obtaining satisfactory scores on an approved examination, and meeting other performance requirements (if any) set by a state education agency or other appropriate body.

Appendix E: State Reporting Dropout Instructions

STATE REPORTING INSTRUCTIONS

These are the instructions for reporting dropouts for the National Center for Education Statistics on the Common Core of Data (CCD) survey. These instructions ensure that the reported dropout data are comparable across all states' school districts. The dropout count is reported at the school district level on the CCD Local Education Agency Universe Survey.

I. Dropout Definition

The CCD dropout definition is based on a “snapshot” count of students at the beginning of the school year: A dropout is an individual who:

1. was enrolled in school at some time during the previous school year¹ and was not enrolled on October 1 of the current school year; or
2. was not enrolled on October 1 of the previous school year although expected to be in membership (i.e., was not reported as a dropout the year before); and
3. has not graduated from high school or completed a state- or district-approved educational program and
4. does not meet any of the following exclusionary conditions:
 - i. transfer to another public school district, private school, or state- or district-approved education program;
 - ii. temporary school-recognized absence due to suspension or illness, or
 - iii. death.

For purposes of applying this dropout definition, the following definitions also apply:

- A. *School year* is the 12-month period beginning on October 1, 2001 and ending September 30, 2002. Thus, it includes the summer following the regular school year.
- B. *School completer* is an individual who has graduated from high school or completed some other education program that is approved by the state or local education agency.
- C. *State- or district-approved program* is one that leads to the receipt of formal recognition of completion from school authorities. It may include special education programs, home-based instruction, and programs administered by a secondary education agency (but not adult or postsecondary) leading to a GED-based diploma or some other certification differing from the regular diploma. Programs recognized as legitimate by the state are considered approved even if the public education system does not directly administer them; home schooling and charter schools may be examples of such programs.
- D. *Transfer to another school or program* may be confirmed by a method selected by the state or school district. A transcript request, withdrawal notice signed by a parent that

¹ A student who was enrolled in September, 2001; dropped out of school in February, 2002; and was not enrolled in school on October 1, 2002 would be reported as a 2001-02 dropout (*previous year*) on the 2002-03 CCD (*current year*).

includes assurances the student will be enrolled elsewhere, and the like are acceptable. States are discouraged from accepting hearsay reports or unsubstantiated statements of intent from departing students.

- E. *Race/ethnicity* of dropouts currently is reported using the pre-1997 standards set by the Office of Management and Budget. The categories approved for the CCD through the 2002–03 school year are American Indian/Alaska native; Asian/Pacific Islander; Hispanic; Black, not Hispanic; White, not Hispanic. Definitions are included in the CCD Instructions Manual.
- F. *Gender* of dropouts is to be reported as male or female.
- G. *Grade classifications*, grades 7 through 12, are used to report dropouts, not the student's age.
- H. *Ungraded dropouts* should be allocated to the grade most appropriate for their age.

II. Other Basic Guidelines

The CCD reports an *event* dropout count – the number of students who leave school during a defined period of time, in this case, a calendar year. The dropout count is taken on October 1, 2001, or the school day closest to this date, in order to agree with the CCD membership count that is taken on the same day.

The defining decision is whether a student is a dropout on October 1, 2001. A student who missed much of the previous school year (2000–2001) but who is in membership on October 1, 2001 is not a dropout, while a student who is not in membership on October 1, 2001 but who returns later in that school year is a dropout (for the previous year, (2000–2001). CCD publications compute a dropout rate by dividing the number of dropouts for a year by the membership count taken at the beginning of that year.

More guidelines:

1. “*Summer dropouts*” are students who were not dropouts at the close of the previous school year (2000–2001) but who fail to enroll by October 1, 2001. Summer dropouts are reported as dropouts for the grade and school year for which they fail to report. For example, a student who completes the 10th grade in 2000–2001 but who is not re-enrolled on October 1, 2001 is reported as a 2001–02 dropout for 11th grade.
2. Students who enroll in adult education programs are counted as dropouts *unless the elementary/secondary school system remains responsible for the student*. The intent of this guideline is to ensure that students who do not complete a program but for whom the district no longer takes responsibility are counted as dropouts.
 - i. Transferring to an alternative education setting, if it is part of the elementary/secondary education system, is not considered dropping out. For example, students enrolled in elementary/secondary education in prisons, hospitals, ‘store front’ locations or other nontraditional locations are not dropouts if the program is part of the elementary/secondary system. This means that a student who enrolls in a school-operated program for high-risk students *is not a dropout*, even if the program is preparing the student to take the GED examination.
 - ii. A student who leaves an elementary/secondary school and enrolls in adult education *is a dropout*. The exception to this guideline is when the public school system monitors the student’s enrollment and reports the student as a dropout if the student drops out of the adult program. An example of this would be a cooperative arrangement between a public school district and a local technical institute that provides GED preparation for students referred directly by the district. The district counts as dropouts the referred students who did not complete the GED study program.
 - iii. Students who drop out during the 2000–2001 school year but who have obtained a completion credential, such as a GED-based diploma or certificate of completion, on October 1, 2001 are not reported as dropouts.

3. An early college admissions student, one who transfers to a postsecondary program leading to a baccalaureate or associate’s degree, is not a dropout.
4. Students who fail to meet some graduation requirements, and who leave school without a diploma or other credential, are dropouts even if they have completed the 12th grade.
5. Students who leave the United States are not considered to be dropouts even if the school district cannot document the student’s subsequent enrollment in school.
6. Students who drop out during the 2001–02 school year but are re-enrolled on October 1, 2002 are not reported as dropouts.
7. Students who drop out multiple times in a school year are reported only once for a single school year. However, students who drop out in more than one year are reported as dropouts for each year in which they are not in membership on October 1.
8. Underage dropouts, those who leave school when they are still too young to do so legally, should be reported on the CCD if they drop out of any of grades 7 through 12. These dropouts should be reported even if the state or district considers them “truants” rather than dropouts.
