

**Maintenance Wage Rate Survey - Summary Sheet**

**U.S. Department of Housing and Urban Development  
Office of Labor Relations**

**HUD FORM 4752**  
OMB Approval Number XXXX-XXXX  
(Exp. XX/XX/XXXX)

**Public Housing Agency/Indian Housing Agency:** \_\_\_\_\_ **Work Classification:** \_\_\_\_\_

Column 1 Employer	Column 2 No. Employed	Column 3 Basic Hourly Wage Rate	Column 4 Fringe Benefits (Hourly Rate)	Weighted Rates	
				Column 5 Basic Hourly Wage Rate	Column 6 Fringe Benefits (Hourly Rate)
		\$	\$	\$	\$
		\$	\$	\$	\$
		\$	\$	\$	\$
		\$	\$	\$	\$
		\$	\$	\$	\$
		\$	\$	\$	\$
		\$	\$	\$	\$
<b>TOTALS: (Use additional sheets, if needed.)</b>		\$	\$	\$	\$

**Instructions:**

Enter the data received on survey responses (e.g., HUD-4751). Use a separate Summary Sheet for each maintenance job classification to calculate the prevailing wage rate for that classification.

**Prevailing Wage Rate Calculations:**

1) Majority Rate:	Where a majority of workers in the same work classification earn the same basic wage rate or fringe benefit rate, the basic rate or fringe rate (or both, if applicable) paid to the majority is the <i>prevailing rate(s)</i> . List any prevailing rate(s) based on the majority in the appropriate spaces, below. <b>Or,</b>
2) Weighted Average:	Where there is no majority for the basic rate or fringe benefit rate, the <i>prevailing wage rate(s)</i> is the weighted average of all wage rates (basic or fringe benefit, as applicable) paid to workers in the classification. Calculate the <i>weighted average</i> of the basic or fringe benefit wage rate(s), as follows: Multiply <u>each different wage rate</u> (Column 3 and/or Column 4) by the number of workers <u>receiving that wage rate</u> (Column 2). Enter the products in Columns 5 and 6. Compute the <i>total</i> number of all workers (Column 2) and the total <i>weighted basic and fringe benefit rates</i> . Divide the total <i>weighted basic rate</i> or <i>total weighted fringe benefit rate</i> by the total number of workers to determine the <i>weighted average</i> . Enter the <i>prevailing wage rate(s) based on weighted averaging</i> in the appropriate spaces below.
