Part F: Value of Reefs

Local, state, and federal government agencies are considering different approaches to maintaining the health and condition of natural and artificial reefs in Monroe County/Florida Keys. One plan focuses on providing greater protection for natural reefs by maintaining water quality, limiting damage to *natural reefs* from anchoring, and preventing overuse of the natural reefs. A second plan focuses on protecting the *artificial reefs* by maintaining water quality, limiting damage to artificial reefs from anchoring, and preventing overuse of the artificial reefs.

Both of these plans will involve increased costs to local businesses that will ultimately be passed on to both residents and visitors in Monroe County/Florida Keys. We are doing this survey because the government agencies want to know whether you support one, both, or none of these plans and if you would be willing to incur higher costs to pay for these plans.

Please keep in mind that whether you support these plans or not would not have any effect on your ability to participate in any boating activity or other recreation in Monroe County/Florida Keys.

F1. Suppose there was a plan to maintain the health and condition of *natural reefs* in Monroe County/Florida Keys. First, consider your total costs for your last boating trip in Monroe County/Florida Keys including travel expenses, lodging, and all boating expenses. If your total costs for this trip would have been \$ ___ higher, would you have been willing to pay this amount to maintain the *natural reefs* in their existing condition?

YES (Go to F2.) NO (Go to F1a.)

F1a. If you answered NO to the above question or you don't know or you refuse to answer the question, please circle the **one** letter that best explains your reason for saying no or don't know; or refusing to answer?

- A. A contribution of that amount is more than natural reefs are worth to me.
- B. I really don't know how much natural reefs are worth to me.
- C. There are no problems with water quality or the natural reefs.
- D. There is not enough information to form a decision.
- E. I don't understand or like the question.
- F. I already pay too much to government.
- G. Government waste should be reduced to pay for water quality protection and management of the natural reefs.
- H. Other (please explain): _____

F2. Now suppose there was a plan to maintain the health and condition of *artificial reefs* in Monroe County/Florida Keys and that this was the only plan you were asked to consider. Think about your total costs for your last boating trip in Monroe County/Florida Keys again including travel expenses, lodging, and all boating expenses. If your total costs for this trip would have been \$ ___ higher, would you have been willing to pay this amount to maintain the *artificial reefs* in their existing condition?

YES (Go to F3.) NO (Go to F2a.)

F2a. If you answered NO to the above question or you don't know or you refuse to answer the question, please circle the **one** letter that best explains your reason for saying no or don't know; or refusing to answer?

- A. A contribution of that amount is more than artificial reefs are worth to me.
- B. I don't really know how much artificial reefs are worth to me.
- C. There are no problems with water quality or the artificial reefs.
- D. There is not enough information to form a decision.
- E. I don't understand or like the question.
- F. I already pay too much to government.
- G. Government waste should be reduced to pay for water quality protection and management of the artificial reefs.
- H. Other (please explain): _____

F3. Finally, suppose that both of these plans to maintain the existing condition of **natural and artificial reefs** in Monroe County/Florida Keys were put together into a combined program. Consider once again your total costs for your last boating trip in Monroe County/Florida Keys including travel expenses, lodging, and all boating expenses. If your total costs for this trip would have been \$ ___ higher, would you have been willing to pay this amount to maintain the **natural and artificial reefs** in their existing condition?

- YES (Go to Part G) NO (Go to F3a.)

F3a. If you answered NO to the above question or you don't know or you refuse to answer the question, please circle the **one** letter that best explains your reason for saying no or don't know; or refusing to answer?

- A. A contribution of that amount is more than reefs are worth to me.
- B. I don't really know how much reefs are worth to me.
- C. There are no problems with water quality or the reefs.
- D. There is not enough information to form a decision.
- E. I don't understand or like the question.
- F. I already pay too much to government.
- G. Government waste should be reduced to pay for water quality protection and management of the reefs.
- H. Other (please explain): _____
