Part D: Substitution

There are many places to engage in snorkeling/SCUBA diving activities. In the next several questions, we are attempting to understand the reason you may choose to snorkel/SCUBA dive on one reef versus another, or if necessary, choose to engage in activities other than snorkeling/SCUBA diving in the Florida Keys.

When answering the following questions, please think about a favorite or most common reef that you dive on in the Florida Keys. If you do not have a favorite or most common reef that you dive on in the Keys, please think about the last reef that you dove on in the Florida Keys. Read the choices and circle the number that indicates your answer for that question.

D1. Please circle which reef you are thinking of when responding to the following questions. (Please circle only one answer)

Part E: Management Alternatives

Snorkeler / SCUBA diver

If not a snorkeler / SCUBA diver in the Florida Keys, but do recreational fishing, GO to page 22.

If not a snorkeler / SCUBA diver or recreational fisher in the Florida Keys, GO to page 27.

Please think about a recreational snorkeling / SCUBA diving experience on a reef in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two diving trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

There is an example below to assist you. Please note the following definitions before reviewing the example.

- Number of Snorkelers / Divers - the number of snorkelers / divers on a reef at any one time
- Restrictions- percent area of reef open to use
- Enforcement- the number of law enforcement patrols you observe per trip

- 4 a knowledgeable expert in the sport. I encourage, teach and enhance opportunities for others who are interested in the activity.

C3. My relationships with others who do the activity are:

- 1 not established. I really don't know any other people who do the activity.

- 3 one of familiarity. I know the names of others who do the activity, and often speak with them.
- 4 close. I have personal and close relationships with others in the activity. These friendships often revolve around the activity.

C4. My commitment to the activity is:

- 1 very slight. I have very little connection to the activity. I may or may not continue to participate in the sport in the future.
- 2 moderate. I will continue to do it as it is entertaining and provides the benefits I want.
- 3 fairly strong. I have a sense of being a member of the activity, and it is likely that I will continue to do it for a long time.
- 4 very strong. I am totally committed to the activity. I encourage others to participate in the sport and seek to ensure the activity continues into the future.

Part D: Substitution

There are many places to engage in snorkeling/SCUBA diving activities. In the next several questions, we are attempting to understand the reason you may choose to snorkel/SCUBA dive on one reef versus another, or if necessary, choose to engage in activities other than snorkeling/SCUBA diving in the Florida Keys.

When answering the following questions, please think about a favorite or most common reef that you dive on in the Florida Keys. If you do not have a favorite or most common reef that you dive on in the Keys, please think about the last reef that you dove on in the Florida Keys. Read the choices and circle the number that indicates your answer for that question.

D1. Please circle which reef you are thinking of when responding to the following questions. (Please circle only one answer)

- 1 Favorite reef to snorkel/dive on
- 2 Most common reef I snorkel/dive on
- 3 Most recent reef I snorkeled/dove on

D2. Is this reef a:

- 1 Natural coral reef
- 2 Artificial reef

D3. Are you able to recall the name of this reef? If so, please list in below.

_____ reef

D4. Imagine that you discovered that you could not snorkel/SCUBA dive at this reef (from question #D1 above) during your next planned snorkel/SCUBA dive trip. What would you do? (Please circle only one answer)

If not a snorkeler / SCUBA diver or recreational fisher in the Florida Keys, GO to page 27.

Please think about a recreational snorkeling / SCUBA diving experience on a reef in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two diving trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

There is an example below to assist you. Please note the following definitions before reviewing the example.

- Number of Snorkelers / Divers - the number of snorkelers / divers on a reef at any one time
- Restrictions- percent area of reef open to use
- Enforcement- the number of law enforcement patrols you observe per trip
- Number of Fish Species- the amount of different kinds of fish species observed on the reef
- Site Settings- the amount of live coral and/or algae on the reef
- Number of Fish- the overall amount of fish observed on the reef
- Size of Fish- the size of fish observed on the reef
- Travel cost / day – Travel cost that a snorkeler / diver spends for a diving trip per day (including gas and other trip expenses)

Part D: Substitution

There are many places to engage in snorkeling/SCUBA diving activities. In the next several questions, we are attempting to understand the reason you may choose to snorkel/SCUBA dive on one reef versus another, or if necessary, choose to engage in activities other than snorkeling/SCUBA diving in the Florida Keys.

When answering the following questions, please think about a favorite or most common reef that you dive on in the Florida Keys. If you do not have a favorite or most common reef that you dive on in the Keys, please think about the last reef that you dove on in the Florida Keys. Read the choices and circle the number that indicates your answer for that question.

D1. Please circle which reef you are thinking of when responding to the following questions. (Please circle only one answer)

- 1 Favorite reef to snorkel/dive on
- 2 Most common reef I snorkel/dive on
- 3 Most recent reef I snorkeled/dove on

D2. Is this reef a:

- 1 Natural coral reef
- 2 Artificial reef

D3. Are you able to recall the name of this reef? If so, please list in below.

_____ reef

D4. Imagine that you discovered that you could not snorkel/SCUBA dive at this reef (from question #D1 above) during your next planned snorkel/SCUBA dive trip. What would you do? (Please circle only one answer)

- 1 I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- 2 I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- 3 I would temporarily participate in a different activity in the Florida Keys
- 4 I would temporarily participate in a different activity, but outside the Florida Keys

D5. Imagine that you discovered that you could not snorkel/SCUBA dive at this reef (from question #D1 above) for the next five years. What would you do?

- 1 I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- 2 I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- 3 I would permanently participate in a different activity in the Florida Keys
- 4 I would permanently participate in a different activity, but outside the Florida Keys

D6. Imagine that you discovered during your next snorkel/SCUBA dive trip that this reef (from question #D1 above) was more crowded than you normally find acceptable. What would you do?

- 1 I would make an exception and still snorkel/ SCUBA dive on this reef
- 2 I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- 3 I would temporarily participate in a different activity in the Florida Keys
- 4 I would temporarily participate in a different activity, but outside the Florida Keys

D7. Imagine that you discovered during your next snorkel/SCUBA dive trip that this reef (from question #D1 above) was more ecologically damaged (e.g., there wasn't enough healthy coral or fish) than normally find acceptable. What would you do?

- 1 I would make an exception and snorkel/ SCUBA dive on this reef
- 2 I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys

If not a snorkeler / SCUBA diver or recreational fisher in the Florida Keys, GO to page 27.

Please think about a recreational snorkeling / SCUBA diving experience on a reef in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two diving trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

- Restrictions- percent area of reef open to use
- Enforcement- the number of law enforcement patrols you observe per trip
- Number of Fish Species- the amount of different kinds of fish species observed on the reef
- Site Settings- the amount of live coral and/or algae on the reef
- Number of Fish- the overall amount of fish observed on the reef
- Size of Fish- the size of fish observed on the reef
- Travel cost / day – Travel cost that a snorkeler / diver spends for a diving trip per day (including gas and other trip expenses)
