

## THANK YOU!

for  
participating in this  
Recreation Survey

Dear Visitor,

During your recent trip to the Florida Keys you indicated that you would be willing to complete this questionnaire. It is self-explanatory and should not take long to complete. **Please** record your answers accurately and legibly. Your answers represent many other people not included in this survey effort so it is **very important** that you return your questionnaire.

Your answers are voluntary and confidential. Your name will never be released to anyone unless otherwise required by law. After the completion of the project all materials identifying you as an individual will be destroyed.

When you complete the questionnaire, please reverse-fold it so that our return address on the GREEN PAGE in the inside is folded to the outside. Please staple or tape to seal the questionnaire and mail it back to us. No postage is needed. Your cooperation in this effort is greatly appreciated.

Sincerely,

Please note: It is very important that the same person who participated in the on-site interview also complete this questionnaire.

There are many places to engage in snorkeling/SCUBA diving activities. In the next several questions, we are attempting to understand the reason you may choose to snorkel/SCUBA dive on one reef versus another, or if necessary, choose to engage in activities other than snorkeling/SCUBA diving in the Florida Keys.

When answering the following questions, please think about a favorite or most common reef that you dive on in the Florida Keys. If you do not have a favorite or most common reef that you dive on in the Keys, please think about the last reef that you dove on in the Florida Keys.

Read the choices and circle the letter that indicates your answer for that question.

1. Please circle which reef you are thinking of when responding to the following questions. (Please circle only one answer)

- A Favorite reef to snorkel/dive on
- B Most common reef I snorkel/dive on
- C Most recent reef I snorkeled/dove on

2. Is this reef a:

- A Natural coral reef
- B Artificial reef

3. Are you able to recall the name of this reef? If so, please list in below.

\_\_\_\_\_ reef

4. Imagine that you discovered that you could not snorkel/ SCUBA dive at this reef (from question #1 above) during your next planned snorkel/SCUBA dive trip. What would you do? (Please circle only one answer)

- A I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- B I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

5. Imagine that you discovered that you could not snorkel/ SCUBA dive at this reef (from question #1 above) for the next five years. What would you do?

- A I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- B I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- C I would permanently participate in a different activity in the Florida Keys
- D I would permanently participate in a different activity, but outside the Florida Keys

6. Imagine that you discovered during your next snorkel/ SCUBA dive trip that this reef (from question #1 above) was more crowded than you normally find acceptable. What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

7. Imagine that you discovered during your next snorkel/ SCUBA dive trip that this reef (from question #1 above) was more ecologically damaged (e.g., there wasn't enough healthy coral or fish) than normally find acceptable. What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

8. Imagine that you discovered during your next snorkel/ SCUBA dive trip that user groups with whom you experience conflict are using this reef (from question #1 above). What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

9. If you could not snorkel/SCUBA dive at this reef (from question #1 above), how many other Florida Keys reefs do you think can offer you just as good an experience as your favorite reefs?

\_\_\_\_\_ number of other Florida Keys reefs

10. If you could not snorkel/SCUBA dive at this reef (from question #1 above), how many other Florida Keys reefs do you think can offer you a similar, but not quite as good, experience?

\_\_\_\_\_ number of other Florida Keys reefs

Don't Know

11. Please rate how similar you think the snorkeling/SCUBA diving experience is at your **best similar** reef compared to this reef (from question #1 above).

Not as good				Equivalent				Better
1	2	3	4	5	6	7		

12. There are many things that you might think about or consider when deciding to substitute one reef for another when snorkeling or SCUBA diving. Please indicate how important each of the following factors is in terms of deciding whether or not you would choose to snorkel/SCUBA dive at a substitute reef.

	Not at all important	Somewhat important	Moderately important	Very important	Extremely important
a) The quality of other reefs.....	1	2	3	4	5
b) The difficulty of the diving conditions on other reefs.....	1	2	3	4	5
c) The distance to other reefs.....	1	2	3	4	5
d) My familiarity with various dive shops.....	1	2	3	4	5

k) The presence of other groups that I don't like.....	1	2	3	4	5
l) Other.....	1	2	3	4	5

13. If you could not go snorkeling/SCUBA diving, either in the Florida Keys or elsewhere, are there any other recreation activities in the Florida Keys that would provide you with the same satisfaction and enjoyment that you receive from going snorkeling/SCUBA diving?

Yes --- If yes, please go to question # 14 below

No --- If no, please go to question # 15 below

14. If you answered “yes” to question 13, please list up to three specific activities that you consider to be substitutes for snorkeling/SCUBA diving.

 If not a snorkeler / SCUBA diver or recreational fisher in the Florida Keys, GO to last page.

Please think about a recreational snorkeling / SCUBA diving experience on a reef in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two diving trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

There is an example to assist you. Please note the following definitions before reviewing the example.

- Number of Snorkelers / Divers - the number of snorkelers / divers on a reef at any one time
- Restrictions- percent area of reef open to use
- Enforcement- the number of law enforcement patrols you observe per trip
- Number of Fish Species- the amount of different kinds of fish species observed on the reef
- Site Settings- the amount of live coral and/or algae on the reef
- Number of Fish- the overall amount of fish observed on the reef
- Size of Fish- the size of fish observed on the reef
- Travel cost / day – Travel cost that a snorkeler / diver spends for a diving trip per day (including gas and other trip expenses)

- Number of Recreational Fishing Boats- the number of recreational fishing boats near you at any one time
- Number of Non-fishing boats- the number of non-fishing boats near you at any one time
- Restrictions- the number of reefs closed to fishing per zone (upper Keys, middle Keys, lower Keys)
- Number of Fish Species- the amount of different kinds of fish species caught in a trip
- Number of Fish- the overall amount of fish caught on a trip
- Size of Fish- the number of legal sized fish caught on a trip
- Travel cost / day – Travel cost that an angler spends for a fishing trip per day (including gas and other trip expenses)

This is a cooperative research project of the Monroe County Tourist Development Council and the National Oceanic and Atmospheric Administration. Public reporting burden for this collection of information is estimated to average 20 minutes including time for reviewing instructions, searching existing data sources, gathering and maintaining the data need, and completing and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden, to U.S. Department of Commerce, Clearance Officer, Office of Chief Information Officer, Rm. 6625, 14th and Constitution Avenue NW, Washington, DC 20230. Notwithstanding any other provisions of the law, no person is required to respond to, nor shall any person be subject to penalty for failure to comply with, a collection of information subject to requirements of the Paperwork Reduction Act, unless that collection of information displays a currently valid OMB Control Number.

## THANK YOU!

for  
participating in this  
Recreation Survey

Dear Visitor,

During your recent trip to the Florida Keys you indicated that you would be willing to complete this questionnaire. It is self-explanatory and should not take long to complete. **Please** record your answers accurately and legibly. Your answers represent many other people not included in this survey effort so it is **very important** that you return your questionnaire.

Your answers are voluntary and confidential. Your name will never be released to anyone unless otherwise required by law. After the completion of the project all materials identifying you as an individual will be destroyed.

When you complete the questionnaire, please reverse-fold it so that our return address on the GREEN PAGE in the inside is folded to the outside. Please staple or tape to seal the questionnaire and mail it back to us. No postage is needed. Your cooperation in this effort is greatly appreciated.

Sincerely,

Please note: It is very important that the same person who participated in the on-site interview also complete this questionnaire.

There are many places to engage in snorkeling/SCUBA diving activities. In the next several questions, we are attempting to understand the reason you may choose to snorkel/SCUBA dive on one reef versus another, or if necessary, choose to engage in activities other than snorkeling/SCUBA diving in the Florida Keys.

**When answering the following questions, please think about a favorite or most common reef that you dive on in the Florida Keys. If you do not have a favorite or most common reef that you dive on in the Keys, please think about the last reef that you dove on in the Florida Keys.**

**Read the choices and circle the letter that indicates your answer for that question.**

**1. Please circle which reef you are thinking of when responding to the following questions. (Please circle only one answer)**

- A Favorite reef to snorkel/dive on
- B Most common reef I snorkel/dive on
- C Most recent reef I snorkeled/dove on

**2. Is this reef a:**

- A Natural coral reef
- B Artificial reef

**3. Are you able to recall the name of this reef? If so, please list in below.**

\_\_\_\_\_ reef

**4. Imagine that you discovered that you could not snorkel/ SCUBA dive at this reef (from question #1 above) during your next planned snorkel/SCUBA dive trip. What would you do? (Please circle only one answer)**

- A I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- B I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

**5. Imagine that you discovered that you could not snorkel/ SCUBA dive at this reef (from question #1 above) for the next five years. What would you do?**

- A I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- B I would still snorkel/ SCUBA dive, but at a location outside of the Florida Keys
- C I would permanently participate in a different activity in the Florida Keys
- D I would permanently participate in a different activity, but outside the Florida Keys

6. Imagine that you discovered during your next snorkel/ SCUBA dive trip that this reef (from question #1 above) was more crowded than you normally find acceptable. What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

7. Imagine that you discovered during your next snorkel/ SCUBA dive trip that this reef (from question #1 above) was more ecologically damaged (e.g., there wasn't enough healthy coral or fish) than normally find acceptable. What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

8. Imagine that you discovered during your next snorkel/ SCUBA dive trip that user groups with whom you experience conflict are using this reef (from question #1 above). What would you do?

- A I would make an exception and still snorkel/ SCUBA dive on this reef
- B I would still snorkel/ SCUBA dive, but elsewhere in the Florida Keys
- C I would temporarily participate in a different activity in the Florida Keys
- D I would temporarily participate in a different activity, but outside the Florida Keys

9. If you could not snorkel/SCUBA dive at this reef (from question #1 above), how many other Florida Keys reefs do you think can offer you just as good an experience as your favorite reefs?

11. Please rate how similar you think the snorkeling/SCUBA diving experience is at your **best similar** reef compared to this reef (from question #1 above).

k) The presence of other groups that I don't like.....	1	2	3	4	5
l) Other.....	1	2	3	4	5

13. If you could not go snorkeling/SCUBA diving, either in the Florida Keys or elsewhere, are there any other recreation activities in the Florida Keys that would provide you with the same satisfaction and enjoyment that you receive from going snorkeling/SCUBA diving?

Yes --- If yes, please go to question # 14 below

No --- If no, please go to question # 15 below

14. If you answered “yes” to question 13, please list up to three specific activities that you consider to be substitutes for snorkeling/SCUBA diving.

**Management Alternatives**

**Snorkeler / SCUBA diver**  
 If not a snorkeler / SCUBA diver in the Florida Keys, but do recreational fishing, GO to page 16.  
 If not a snorkeler / SCUBA diver or recreational fisher in the Florida Keys, GO to last page.

Please think about a recreational snorkeling / SCUBA diving experience on a reef in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two diving trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

There is an example to assist you. Please note the following definitions before reviewing the example.

- Number of Snorkelers / Divers - the number of snorkelers / divers on a reef at any one time
- Restrictions- percent area of reef open to use
- Enforcement- the number of law enforcement patrols you observe per trip
- Number of Fish Species- the amount of different kinds of fish species observed on the reef
- Site Settings- the amount of live coral and/or algae on the reef
- Number of Fish- the overall amount of fish observed on the reef
- Size of Fish- the size of fish observed on the reef
- Travel cost / day – Travel cost that a snorkeler / diver spends for a diving trip per day (including gas and other trip expenses)

**Example**

If you were planning a snorkel / SCUBA dive trip to the Florida Keys, which trip would you prefer: Trip A, Trip B, or neither?

ATTRIBUTE	Trip A	Trip B
<b>Number of Snorkelers / Divers</b>	<i>15% fewer snorkelers / divers</i>	<i>30% fewer snorkelers/ divers</i>
<b>Site Settings</b>	<i>Mix of coral and algae cover</i>	<i>High live coral cover</i>
<b>Restrictions</b>	<i>25% of area closed</i>	<i>75 % of area closed</i>
<b>Number of Fish</b>	<i>40% more fish</i>	<i>No increase in numbers of fish</i>
<b>Size of Fish</b>	<i>40% more larger fish</i>	<i>20 % more larger fish</i>
<b>Species</b>	<i>No change in species numbers</i>	<i>Fewer species</i>
<b>Enforcement</b>	<i>Two additional patrols</i>	<i>No additional patrols</i>
<b>Travel Cost / Day</b>	<i>Your current total cost per day</i>	<i>10% more than your current total cost per day</i>

**Recreational Fisher**

If not a Recreational fisher in the Florida Keys, GO to last page.

Please think about a recreational fishing experience in the Florida Keys when answering the questions on the following pages. You will be offered eight (8) choices of two fishing trips. Each choice has different features for you to evaluate. Please read each choice carefully. Although they may look similar, trips in each question differ in at least one way.

There is an example to assist you. Please note the following definitions before reviewing the example.

- Number of Recreational Fishing Boats- the number of recreational fishing boats near you at any one time
- Number of Non-fishing boats- the number of non-fishing boats near you at any one time
- Restrictions- the number of reefs closed to fishing per zone (upper Keys, middle Keys, lower Keys)
- Number of Fish Species- the amount of different kinds of fish species caught in a trip
- Number of Fish- the overall amount of fish caught on a trip
- Size of Fish- the number of legal sized fish caught on a trip
- Travel cost / day – Travel cost that an angler spends for a fishing trip per day (including gas and other trip expenses)

**Example**
