

Participants Wanted for Research Study

The National Center for Health Statistics is looking for persons aged 18 and over to test questions that may be used on a national survey.

Anyone may participate but we are particularly interested in women who have children 8-17 years of age. We would like to talk to you if you have had an HPV virus vaccine, colonoscopy, pap test, tetanus shot, hepatitis vaccine, or mammogram. The interview will be no longer than 60 minutes and participants will receive \$40.
