ADVISORY: UNEMPLOYMENT INSURANCE PROGRAM LETTER
NO.

TO: STATE WORKFORCE AGENCIES

FROM: CHERYL ATKINSON
Administrator
Office of Workforce Security

SUBJECT: Extension of the ETA 9048 and ETA 9049 Reports for the
Worker Profiling and Reemployment Services
Program

1. Purpose. To inform state workforce agencies (SWAs) that the Office of Management and Budget (OMB) has approved the extension for collection of the ETA-9048, Worker Profiling and Reemployment Services Activity Report and the ETA 9049, Worker Profiling and Reemployment Services Outcomes Report.
2. References. ETA Handbook No. 401, the Unemployment Insurance Reports Handbook.
3. Background. The Unemployment Insurance Worker Profiling and Reemployment Services (WPRS) program was established to identify, as early as possible in the claims series, those beneficiaries who are likely to exhaust their benefits. The goal is to provide the reemployment services that would be most helpful to the beneficiary as soon as possible. The ETA 9048 report tracks beneficiaries from the time they are profiled and, if selected, referred to services through the completion of services. The ETA 9049 report provides information about their employment outcomes following completion of services that can be discerned from data contained in state unemployment insurance wage records.
4. OMB Approval. This data collection has been approved by the Office of Management and Budget (OMB) under the Paperwork Reduction Act of 1995, OMB approval number 1205-0187, expiration date: XX/XX/XXXX. SWAs are not required to respond to this collection of information unless it displays a valid OMB control number.
