### General Instructions

Section references are to the Internal Revenue Code.

#### What's New

- The tax liability limit is no longer figured on this form. Instead, it must be figured on Form 3800, General Business Credit.
- Taxpayers that are not partnerships, S corporations, cooperatives, estates, or trusts, and whose only source of this credit is from those pass-through entities, are not required to complete or file this form. Instead, they can report this credit directly on line 1n of Form 3800.
- The IRS will revise this December 2005 version of the form only when necessary. Continue to use this version for tax years beginning after 2005 until a new revision is issued.

#### Purpose of Form

Employers use Form 8882 to claim the credit for qualified childcare facility and resource and referral expenditures. The credit is part of the general business credit. You may claim the credit any time within 3 years from the due date of your return on either an original or amended return.

*(For more details, see section 45F.)*

#### How To Figure the Credit

The credit is 25% of the qualified childcare facility expenditures plus 10% of the qualified childcare resource and referral expenditures paid or incurred during the tax year. The credit is limited to \$150,000 per tax year.

*Qualified childcare expenditures* are amounts paid or incurred:

- To acquire, construct, rehabilitate, or expand property that:
  - is to be used as part of a qualified childcare facility of the taxpayer,
  - is depreciable (or amortizable) property, and
  - is not part of the principal residence of the taxpayer or any employee of the taxpayer;

For the operating expenses of a qualified childcare facility of the taxpayer, including expenses for training of employees, scholarship programs, and providing increased compensation to employees with higher levels of childcare training; or

Under a contract with a qualified childcare facility to provide childcare services to employees of the taxpayer.

**Notes.** Any expenses for childcare included in qualified childcare facility expenditures may not exceed the fair market value of such care.

A *qualified childcare facility* is a facility that meets the requirements of all applicable laws and regulations of the state or local government in which it is located, including the licensing of the facility as a childcare facility. The following conditions must also be met:

- The principal use of the facility must be to provide childcare (unless the facility is also the personal residence of the person operating the facility).
- Enrollment in the facility must be open to employees of the taxpayer during the tax year.

• If the facility is the principal trade or business of the taxpayer, at least 30% of the enrollees of the facility must be dependents of employees of the taxpayer.

• The use of the facility (or the eligibility to use the facility) must not discriminate in favor of highly compensated employees.

41/80%

**Qualified childcare resource and referral expenditures** are amounts paid or incurred under a contract to provide childcare resource and referral services to employees of the taxpayer. The provision of the services (or the eligibility to use the services) must not discriminate in favor of highly compensated employees.

**No Double Benefit Allowed**

You must reduce:

- The basis of any qualified childcare facility by the amount of the credit on line 7 allocable to capital expenditures related to the facility.
- Any otherwise allowable deductions used to figure the credit by the amount of the credit on line 7 allocable to those deductions, and
- Any expenditures used to figure any other credit by the amount of the credit on line 7 allocable to those expenditures (for purposes of figuring the other credit).

**Note.** For credits entered on line 5, only the pass-through entity is required to make this reduction.

**Recapture of Credit**

You may have to recapture part or all of the credit if, before the 10th tax year after the tax year in which your qualified childcare facility is placed in service, the facility ceases to operate as a qualified childcare facility or there is a change in ownership of the facility. However, a change in ownership will not require recapture if the person acquiring the interest in the facility agrees, in writing, to assume the recapture liability. See section 45F(d) for details.

Any recapture tax is reported on the line of your tax return where other recapture taxes are reported (or, if no such line, on the "total tax" line). The recapture tax may not be used in figuring the amount of any credit or in figuring the alternative minimum tax.

**Member of Controlled Group or Business Under Common Control**

For purposes of figuring the credit, all members of a controlled group of corporations (as defined in section 521) and all members of a group of businesses under common control (as defined in section 52(b)), are treated as a single taxpayer. As a member, compute your credit for lines 2 through 4 as follows:

• Compute your credit for line 2 based on your proportionate share of qualified childcare facility expenditures giving rise to the group's credit for line 2. Enter your share of the credit on line 2. Attach a statement showing how your share of the credit was figured, and write "See Attached" next to the entry space for line 2.

• Compute your credit for line 4 based on your proportionate share of qualified resource and referral expenditures giving rise to the group's credit for line 4. Enter your share of the credit on line 4. Attach a statement showing how your share of the credit was figured, and write "See Attached" next to the entry space for line 4.

**Specific Instructions**

**Line 7**

**Estate and trusts:** The credit on line 7 is allocated between the estate or trust and the beneficiaries in proportion to the income they receive. On the dotted line next to line 7, the estate or trust should enter its part of the total credit. Label it "1041 Box(es)" and use this amount in Part II (for Form 3800, if required) to figure the credit to claim on Form 1044.
