**OMB SUPPORTING STATEMENT FOR
COMPLIANCE SERVICE COLLECTION OPERATION (CSCO) – CY07
TO MEASURE CUSTOMER SATISFACTION
IRS, WAGE AND INVESTMENT DIVISION
TIRNO-05-Z-00014**

Introduction

IRS has replaced its traditional measures of accomplishment with a balanced measurement system consisting of business results, customer satisfaction, and employee satisfaction. The Compliance Service Collection Operation (CSCO) section within the Compliance Operating Unit (OU) of Wage and Investment (W&I) will be responsible for resolving balance due and return delinquency customer account issues through the mail, providing account settlement (payment options), and working related issues. As an important customer interface, CSCO will need feedback from customers to continuously improve its operations. This initiative is part of the Service-wide effort to establish a system of balanced organizational performance measures mandated by the IRS Restructuring and Reform Act of 1998. This is also a result of Executive Order 12862, which requires all government agencies to survey their customers and incorporate customer preferences in their process improvement efforts.

The key goals of the survey are to track customer satisfaction at W&I CSCO sites and to identify operational improvements.

Customer Satisfaction Survey

The customer satisfaction survey questionnaire is attached. Completion of the survey is expected to take approximately three minutes.

The objective of the survey will be to gauge customer expectations and perceptions about the CSCO process. The questionnaire is based on the vendor's Net Impression methodology, which asks respondents to evaluate various aspects of their experience and to provide an overall summary evaluation. The results should facilitate more effective management of W&I CSCO by:

- Providing insight from the customer's perspective about possible improvements.
- Providing useful input for program evaluation and execution at the programmatic and field office level of service delivery.

The survey will include several rating questions evaluating service delivery during the CSCO process as well as demographic items. In addition, ample space will be provided for suggestions for improvement.

Survey scoring for this contract will be based on the Customer Satisfaction Survey Score response average to the keystone question – "How would you rate your overall experience with the way your case was handled?" Questions will utilize a 5-point rating scale, with 1 being very dissatisfied and 5 being very satisfied. All survey responses generated will be confidential. The vendor shall ensure that taxpayers responding to the survey are guaranteed anonymity.

Design and Methodology

The sample universe will consist of taxpayers with closed CSCO cases pulled at each of the 5 site locations. The vendor will select 3,333 cases per year. Assuming a 60% response rate, this will yield 2,000 completed questionnaires per year (400 per site).

The vendor will administer the survey by mail on a monthly basis. Standard procedures will be used in order to obtain the highest response rate possible for the mail survey. These will include: 1) an advance letter about the survey; 2) the initial survey with a cover letter; 3) a postcard reminder; and, 4) a second letter and survey to non-respondents.

The vendor will, on a semi-annual basis, summarize the quantitative ratings and produce a national report showing customer satisfaction scores on all CSCO survey items and overall improvement priorities for the function. The vendor will deliver a national report each semi-annual period. On an annual basis, the vendor will prepare 5 site reports containing individual site scores on each of the survey items and improvement priorities for the individual sites. The vendor will include any relevant database variables in the analysis and will weight the survey responses as necessary to reflect accurately the entire customer base.

Reports of survey findings will be distributed to the IRS each semi-annual period. Each report will be delivered approximately seven weeks after the survey cut-off date for the semi-annual period.

Evaluation

For the reports, the vendor will use basic and advanced statistical techniques including, but not limited to, analysis of variance and the prioritization of improvement priorities using vendor's established technique.

- Survey counts and overall response rates.
- The overall level of customer satisfaction with services provided by CSCO
- The averages and frequencies for all rating questions.
- The differences in satisfaction ratings and attitudes across customer segments.
- Which areas of service, in priority order, CSCO should focus its resources to improve overall satisfaction.
- Cross tabulations of variables for the customer surveys.
- Analysis of the relationship between survey responses.
- Analysis of the one open-ended question for improvement suggestions. The vendor shall transcribe and code the responses to the open-ended question and will conduct content analysis in order to provide CSCO with the top ten categories of concern.

Estimates of the Burden of Data Collection

The CSCO survey has been designed to minimize burden on the taxpayer. The time that a respondent takes to complete the survey has been carefully considered and only the most important areas are being surveyed. The average time of survey completion is expected to be 3 minutes, plus 2 minutes to read the pre-notification letter. This is based on the questionnaire consisting of 19 satisfaction questions and 1 demographic question, plus one open-ended question on suggestions for improvement. The questions are generally one sentence in structure and on an elementary concept level.

We have made every attempt in designing this survey to maximize response rate.

Using the response rate of 60 percent, then the total burden for respondents in hours is estimated to be 167 hours (2,000 surveys x 3 minutes / 60 minutes + 2,000 pre-notification letters x 2 minutes / 60 minutes).

For non-respondents, the total number of burden hours is estimated to be 44 hours (1,333 pre-notification letters x 2 minutes/ 60 minutes).

The grand total burden is estimated to be 211 hours for the year.

Privacy, Security, Disclosure and Confidentiality

All participants will be subject to the provisions of the Taxpayer Bill of Rights II during this study and the contractor will ensure that all participants are treated fairly and appropriately.

The security of the data used in this project and the privacy of taxpayers will be carefully safeguarded at all times. Security requirements are based on the Computer Security Act of 1987 and Office of Management and Budget Circular A-130, Appendices A & B. Physical security measures include a locked, secure office. Notes are stored in locked cabinets or shredded. Data security at the C-2 level is accomplished via the Windows NT operating system. Systems are password protected, users profiled for authorized use, and individual audit trails generated and reviewed periodically.

The IRS will apply and meet fair information and record-keeping practices to ensure privacy protection of all taxpayers. This includes criteria for disclosure—laid out in the Privacy Act of 1974, the Freedom of Information Act, and Section 6103 of the Internal Revenue Code—all of which provide for the protection of taxpayer information as well as its release to authorized recipients.

The survey will not contain tax return or taxpayer information. Survey participants will not be identified in any of the documents or files used for this project. We will limit and control the amount of information we collect to those items that are necessary to accomplish the research questions. We will carefully safeguard the security of data utilized as well as the privacy of the survey respondents. We will apply the fair information and record-keeping practices to ensure protection of all survey respondents. The criterion for disclosure laid out in the Privacy Act, the Freedom of Information Act,

Dear JOHN Q & MARY Q SAMPLE:

I need your help with an important initiative I am undertaking to improve our service to taxpayers across the country. I want to get feedback from taxpayers like you who have been through the Innocent Spouse process at the Internal Revenue Service (IRS).

In a few days, you will receive a questionnaire asking for your opinions about working with the IRS during and after the processing of your claim. The questionnaire will take about 5 minutes to complete. Your answers will be combined with others to give us an evaluation on Customer Satisfaction with the service IRS provides. To keep all replies confidential, we have asked an independent research company to administer the survey. The Survey Processing Center employees will process the questionnaires and report only statistical totals to us so that we can make improvements.

I am committed to improving IRS service to every taxpayer. Please help me in this effort by completing and returning the questionnaire as soon as possible. **If you do not receive a questionnaire within 5 to 7 business days, please contact our Survey Processing Center at 1-866-377-8208.**

Thank you in advance for your cooperation.

Dear JOHN Q & MARY Q SAMPLE:

A few days ago you received a letter from Jim Grimes, Director, Compliance, Wage & Investment Division, asking for your help with an important research project. If you have already completed the survey, thank you. If you have not already done so, please take a few minutes to fill in your responses.

We are administering a nationwide survey among people who have had contact with the Internal Revenue Service (IRS). We want to know your opinions about the collection process you went through which began with a notice informing you of a balance due or a return delinquency. Your responses are critical to the accuracy of this research.

We are sending questionnaires to a random sample of taxpayers who have gone through the collection process on a recent tax return have had such discrepancies, and your participation is voluntary. We will group your responses with others, so that no individual reply can be traced back to any one person.

The questionnaire is quite brief and should take only two or three minutes to complete. Please use the postage-paid reply envelope to return your completed questionnaire. If you have any questions or concerns, please feel free to call the Survey Helpline at 1-866-377-8208.

The IRS is committed to improving its performance and service to the American public. A first step in this process is to gather reliable information from those who have had contact with IRS services and employees. Your honest opinions will help bring about this improvement.

Thank you in advance for your cooperation.

Sincerely,
