

12/22/06

Rachel,

As we discussed today, the 30 day FR notice for this collection published on 12/21/06. I discovered a math error on a table while I was putting the package into ROCIS yesterday. The correct number of burden hours is 8,081 and the correct number of annual responses are 15,859. We are going to publish a correction notice in the Federal Register as soon as possible next week, per your request. I have advised the sponsor that the collection will not be cleared by OMB until after 30 days – using the date of the publication of the correction notice in the Federal Register.
