

UNITED STATES DEPARTMENT OF COMMERCE
Bureau of the Census
 Washington, DC 20233-0001

The Census Bureau plans to conduct fiscal year 2008 Demographic Area Address Listing (DAAL) under the generic clearance for the Master Address File (MAF) and Topologically Integrated Geographic Encoding and Referencing (TIGER) update activities (OMB number 0607 - 0809, expiration date 04/30/2010).

The DAAL program encompasses the geographic area updates for the Community Address Updating System (CAUS) and the area and group quarters frame listings for many ongoing demographic surveys (the Current Population Survey, the Consumer Expenditures Survey, etc.). The CAUS program was designed to address quality concerns relating to areas with high concentrations of noncity-style addresses, and to provide a rural counterpart to the update of city-style addresses the MAF will receive from the U.S. Postal Services's Delivery Sequence File. The ongoing demographic surveys, as part of the 2000 Sample Redesign Program, plan to use the MAF as one of several sources of addresses from which to select their samples. In addition to the area and group quarters frame listings, the demographic surveys will also list blocks via the DAAL program in fiscal year 2008 for their Frame Assessment for Current Household Surveys (FACHS) National Evaluation. The DAAL program is a cooperative effort across many divisions at the Census Bureau; it includes automated listing software, systems, and procedures that will allow us to conduct listing operations in a dependent manner based on information contained in the MAF.

The DAAL operations will be conducted on an ongoing basis in potentially any county across the country. Field Representatives (FRs) will canvass selected Census tabulation blocks in an effort to improve the address list in areas where substantial address changes may have occurred that have not been added to the MAF through regular update operations, and/or in blocks in the area or group quarters frame sample for the demographic surveys. FRs will update existing address information, and when necessary, contact individuals, to collect accurate location and mailing address information. In general, contact will occur only when the FR is adding to the address list, and the individual's address is not posted or visible to the FR. There is no pre-determined or scripted list of questions asked as part of this listing operation. If an address is not posted or visible to the FR, the FR will ask about the address of the structure, the mailing address, and, in some instances, the year the structure was built. If the occupants of these households are not at home, the FR may attempt to contact a neighbor to determine the best time to find the occupants at home and/or to obtain the correct address information.

In fiscal year 2008, we expect to list in approximately 18,700 Census tabulation blocks and make contact with approximately 56,300 households and 2316 group quarters. The estimated time for a household contact is 3 minutes and the estimated time for a group quarters contact is 10

minutes for a total of approximately 3,201 hours of respondent burden. At the present time, there is no funding for the CAUS program in fiscal year 2008. The estimates above assume we will not conduct any listings for the CAUS program. If the fiscal year 2008 budget changes, we will revise these estimates.

All information that identifies individuals will be held in strict confidence according to the provisions of Title 13, United States Code, Section 9. When contact is made, the FR will provide a letter (see Attachment A) that provides information on the confidential nature of Census Bureau data. This notice explains that any information given to the Census Bureau will be held in strict confidence. None of the questions asked during the listing are of a sensitive nature and there is no cost to respondents other than that of their time to respond.

The contact person for questions regarding this operation is:

James Hartman

YOUR INFORMATION IS CONFIDENTIAL

The U.S. Census Bureau is testing a new method for updating its address list in your neighborhood. We will use this information to ensure that we have a complete and accurate address list for your entire community, so that future censuses and surveys will be more accurately represented.

Information you provide will be kept confidential and used for statistical purposes only, as required by Title 13, United States Code, Section 9. The Census Bureau cannot publish or release information that would identify any individual. The Congress has imposed criminal sanctions (up to five years imprisonment and /or up to \$250,000 fine) if any Census Bureau employee violates the provisions of Title 13.

Thank you for your help and cooperation. The Census Bureau relies on your full participation, so we can provide your community with the information it needs to plan and make choices.
