□ Use the following definitions from the OMB standards for the classification of Federal data on race and ethnicity for the identified **ethnicity/racial categories**:

American Indian or Alaska Native: a person having origins in any of the original peoples of North and South America (including Central America), and who maintains tribal affiliation or community attachment.

Black or African American: a person having origins in any of the black racial groups of Africa.

Hispanic or Latino: a person of Mexican, Puerto Rican, Cuban, Central or South American or other Spanish culture or origin regardless of race. The term “Spanish Origin” can be used in addition to “Hispanic or Latino”.

Native Hawaiian or Other Pacific Islander: a person having origins in any of the original peoples of Hawaii, Guam, Samoa, or other Pacific Islands.

White: a person having origins in any of the original peoples of Europe, North Africa, or the Middle East.

Use the following definition for **low-income populations** to determine Disadvantaged status:

Low-income populations are defined as individuals who come from a family with an annual income below a level based on low-income thresholds according to family size, published by the U.S. Bureau of the Census, and adjusted annually for changes in the Consumer Price Index, and by the Secretary for use in health professions and nursing programs. Low-income populations are considered to be at risk of poor health outcomes. A family is a group of two or more individuals related by birth, marriage, or adoption who live together or an individual who is not living with any relatives. Most HRSA programs use the income of the student’s parents to compute low income status, while a few programs, depending upon the legislative intent of the program, programmatic purpose of the low income level, as well as the age and circumstances of the average participant, will use the student’s family as long as he or she is not listed as a dependent upon the parents’ tax form. The figures to be used to determine low-income eligibility for purposes of this grant program are:

Size of parents’ family *
1

Income Level **
\$19,600

2	\$26,400
3	\$33,200
4	\$40,000
5	\$46,800
6	\$53,600
7	\$60,400
8	\$67,200

* Includes only dependents listed on Federal income tax forms. Some programs will use the student's family rather than his or her parents' family.

** Adjusted gross income for calendar year 2005.
