#### INTRODUCTION

During the interview, I will ask you questions and put your answers in the computer. You may stop me at any time, and you may go back to earlier questions to change your answers. There are no right or wrong answers to these questions. Only the researchers will see or hear your answers. All of the study results will be reported for groups of parents; no results will be reported for individuals. Your participation is completely voluntary. If you choose not to complete this interview, it will not affect you or your child's participation in any services or programs. The things you tell me are very important, so please be as accurate as possible. Occasionally, I may have to ask a question that does not apply to you or your family. If that happens, just tell me and I will move to the next question. You may recognize some questions from past interviews, but it is important to ask them again. The interview should take approximately 1 hour. After the interview, you will receive \$30.00. It is just one of the ways that we say thank you for your time. As part of this study, we will also do the child assessment with [CHILD] and ask [CHILD]'s teacher some questions.

Before we begin, let me read the following which is required by the Federal government:

NOTICE: According to the Paperwork Reduction Act of 1995, no persons are required to respond to a collection of information unless it displays a valid OMB Control Number. The valid OMB Control Number for this information collection is . The time required to complete this information collection is estimated to average 1 hour per response, including time to review instructions, search existing data resources, gather the data needed, and complete and review the information collection.

Do you have any questions before we begin?
