**PRIORITY 1
General Requirements For Each DRRP**

For the 133A program only

Priority 1--General Disability and Rehabilitation Research
Projects (DRRP) Requirements

Background:

NIDRR proposes the following General DRRP Requirements priority because it believes that the effectiveness of any DRRP (including any DBTAC) depends on, among other things, how well the DRRP coordinates its research efforts with the research of other NIDRR-funded projects, involves individuals with disabilities in its activities, and identifies specific anticipated outcomes that are linked to its objectives in applying for DRRP funding. Accordingly, NIDRR intends to use proposed Priority 1--General DRRP Requirements in conjunction with each of the other DRRP priorities proposed in this notice (i.e., priorities 2 through 11).

Priority:

To meet this priority, the Disability and Rehabilitation Research Projects (DRRP) must—

(a) Coordinate on research projects of mutual interest with relevant NIDRR-funded projects, as identified through consultation with the NIDRR project officer;

(b) Involve individuals with disabilities in planning and implementing the DRRP's research, training, and dissemination activities, and in evaluating its work; and

(c) Identify anticipated outcomes (i.e., advances in knowledge or changes and improvements in policy, practice,

behavior, and system capacity) that are linked to the applicant's stated grant objectives.
