

Department of Transportation
Office of the Secretary
SUPPORTING STATEMENT
49 CFR Part 40
Procedures for Transportation Workplace
Drug and Alcohol Testing Programs

Justification

1. Explain the circumstances that make the collection of information necessary. Attach a copy of the appropriate statute or regulation mandating or authorizing the collection of information.

Five of the Department's Operating Administrations (OA) – Federal Motor Carrier Safety Administration (FMCSA), Federal Aviation Administration (FAA), Federal Transit Administration (FTA), Federal Railroad Administration (FRA) and the Pipeline and Hazardous Materials Safety Administration (PHMSA) – require drug and alcohol testing for safety-sensitive employees in their regulated industries. With few exceptions, however, all the drug and alcohol tests performed under the five OA regulations are conducted using a single source of drug and alcohol testing procedures – 49 CFR Part 40. The Office of the Secretary of Transportation (OST) is the proponent of Part 40.

The Department of Transportation (DOT) first published drug testing procedures – 49 CFR Part 40 – on November 21, 1988 [53 FR 47002] as an interim final rule and a year later on December 1, 1989 issued a final rule [54 FR 49852]. Part 40 prescribed the technical testing process that had to be adhered to by those required to implement existing OA drug testing regulations.

On October 28, 1991, the President of the United States signed Public Law 102 - 143, the Omnibus Transportation Employee Testing Act of 1991 (“the Act”) [Appendix A]. The Act compelled the Department to prescribe regulations that would require testing of safety-sensitive employees in the aviation, highway, rail, and transit industries. The Act specifically mandated, among other things, privacy in collection techniques, incorporation of Department of Health and Human Services' (HHS) mandatory guidelines for drug testing and comparable safeguards for alcohol testing, collection of split samples of body fluid specimens, and confidentiality of test results. It required pre-employment, random, post-accident, and reasonable suspicion testing. Regulations prescribed by the Act needed to include provisions for identification of, and opportunity for treatment for, covered employees in need of assistance due to misuse of alcohol or illegal use of controlled substances.

The Act required changes to Part 40 (e.g., split specimen testing for drugs and provisions for alcohol testing) and to some of the OA regulations. The changes to Part 40, as directed by the Act, were published on February 15, 1994 [59 FR 7340].

In December 2000 [65 FR 79462], Part 40 was revised to produce a cleaner, better organized, simpler-to-follow rule that incorporated the most important guidance and interpretations and dealt creatively with numerous changes in the transportation and testing industries. It also served to introduce procedures designed to strengthen the quality and integrity of the testing program.

Overall, Part 40 directs the activities of numerous persons in the drug and alcohol testing process. Among these are transportation employees and employers, as well as, service agents – urine collectors, forensic laboratory testing personnel, Medical Review Officers, Breath Alcohol Technicians, Screening Test Technicians, and Substance Abuse Professionals.

DOT Goal: The ODAPC regulation and these paperwork burdens support three Department of Transportation goals – the Safety Strategic Objective; the Security Measures; and the Environmental Stewardship Strategic Objective. The regulatory requirements help promote the safety of the traveling public by working toward the elimination of drug and alcohol related transportation deaths and injuries; the security of Americans by working toward ensuring that transportation employees are not hindered by drug and alcohol abuse; and protecting the natural environment by working toward reduction of drug and alcohol use being factors in toxic spills and releases.

2. Indicate how, by whom, and for what purpose the information is to be used, and the actual use made of the information.

Part 40 required the collection of information from a variety of transportation employers, employees and service agents. To ensure the required quality (e.g., privacy, accuracy and confidentiality) of the drug and alcohol testing services provided, OST requires documentation in the collection of urine, breath, and saliva specimens; screening and confirmation of specimen tests; the medical review of results; and the treatment recommendations for those testing positive for drug use or alcohol misuse. This information is used by employers and Department representatives to ensure that those testing positive are removed from safety-sensitive functions, that program problems are immediately identified and corrected, that quality assurance efforts are working, that security and privacy measures are upheld, and that the fairness and credibility of the Department's testing efforts are maintained.

3. Describe whether, and to what extent the collection of information involves the use of automated, electronic, mechanical, or other forms of information technology. Also describe any consideration of using information technology to reduce burden.

The Department believes the increased use of electronic methods is both inevitable and beneficial. Since the program's inception, Part 40 was updated to permit scanned computer images for reporting drug and alcohol test results. The program also permits the electronic

transmission of laboratory results reports to MROs and the electronic storage of certain testing data and information. Recently, the Department permitted employers to submit year end aggregate testing data via the Internet (Previous submissions were all completed by hand and mailed to the respective OAs). In our estimation, approximately 71% of the MIS reports were submitted electronically which represents .1% of the total responses.

4. Describe efforts to identify duplication. Show specifically why any similar information already available cannot be used or modified for use for the purpose described in item 2 above.

This information does not readily exist elsewhere.

5. If the collection of information impacts small businesses or other small entities describe any methods used to minimize burden.

In the past, employers regulated by the Department's drug and alcohol testing regulations were in most instances required to submitted annual aggregate drug and alcohol testing statistics. This required the employer to complete a form and then mail or fax it to the respective regulating DOT OA. Recently, the Department has developed a computer-based application which permits employers to submit year end aggregate testing data electronically via the Internet. We estimate, approximately 71% of the MIS reports were submitted electronically.

6. Describe the consequences to Federal program or policy activities if the collection is not conducted or conducted less frequently, as well as any technical or legal obstacles to reducing burdens.

Many DOT regulated employers rely on a number of persons or groups to coordinate and carry out their drug and alcohol testing responsibilities. Without this collection or by reducing the collection, program auditors and inspectors would not have information adequate to identify and address problems or compliance efforts in this safety program. In addition, legal chain-of-custody is imperative in ensuring that an individual's drug and alcohol test is an accurate reflection of the collection and testing event as well as in assigning a scientific result to a particular individual.

7. Explain any special circumstances that would cause an information collection that would be inconsistent with the guidelines in 5 CFR 1320.5(d)(2)(i) - (viii).

The information required is not in conflict with these guidelines.

8. If applicable describe efforts to:

Notify the public of information collection prior to OMB submission:

On August 4, 2006, the Office of Drug and Alcohol Policy and Compliance published a 60-day notice in the Federal Register [71 FR 44345] Docket # OST-2006-25550, informing the public of the OST's intention to extend a currently approved information of collection. Specifically, the OST solicited comments on whether the proposed collection of information is necessary for the proper performance of the functions of the Department, including whether the information will have practical utility; the accuracy of the Department's estimate of the burden of the proposed information collection; ways to enhance the quality, utility and clarity of the information to be collected; and ways to minimize the burden of collection of information on respondents, including the use of automated collection techniques or other forms of information technology. There were no comments to the docket.

Consultations outside of agency to obtain other views:

OST has consulted with representatives from the Department's OAs, HHS and service agent groups. OST regularly consults with service agents regarding their concerns with the regulations.

Consultations with representatives of the effected population:

OST regularly consults with DOT OAs, employers, and service agents regarding their concerns with the regulations.

9. Explain any decision to provide payment or gift to respondents, other than remuneration of contracts or grantees.

There are no circumstances of any payments or gifts to respondents.

10. Describe any assurance of confidentiality provided to respondents and the basis for the assurance in statute, regulations, or agency policy.

Some of the information to be collected contains information covered under the Federal Privacy Act and conditions of the provisions of privacy contained therein. The United States Supreme Court has upheld the privacy and confidentiality elements of the Department's testing program and chain-of-custody procedures contained in the Part 40 procedures. Some information required of Part 40 can be released to third parties only after appropriate releases of information are signed.

11. Provide additional justification for any questions of a sensitive nature, such as sexual behavior and attitudes, religious beliefs, and other matters that are commonly considered private.

There are no issues pertaining to questions of this nature.

12. Provide estimates of the hour burden of the collection of information.

- A. Total Number of Respondents: 2,783,195 (see table below for itemization)
- B. Total Number of Responses: 6,751,580 (see table below and worksheets in Appendix E for an explanation)
 - 1. Percentage of responses collected electronically: .1% (see item # 3 for explanation)
- C. Total Annual Hours Requested: 695,300 (see table below and worksheets in Appendix E for an explanation)
- D. Current OMB Inventory: 853,257
- E. Difference: -157,957 (see item # 15 for an explanation)
- F. Explanation for Difference:
 - 1. Program Change: 53,860
 - 2. Adjustment: 104,097

Summary Table of Burden Estimates:

PRA Item	Number of Respondents	Number of Responses	Burden Hours	Salary Costs (\$)
Exemptions from Regulation Provisions Requests [40.7(a)]	1	1	3	81
Employer Stand-down Waiver Requests [40.21(b)]	10	10	80	2,160
Employee Testing Records from Previous Employers [40.25(a)]	663,137	1,964,178	261,890	7,071,949
Employee Release of Information [40.25(f)]	1,964,178	1,964,178	130,945	3,535,520
MIS Form Submission [40.26]	4,568	1,702	2,553	68,954
Collector (Qualification and Refresher) Training Documentation (40.33(b) & (e))*	5,000	5,000	333	9,000

Collector Error Correction Training Documentation [40.33(f)]	10,000	13,800	920	24,840
Laboratory Reports to DOT Regarding Unlisted Adulterant [40.91(e)]	1	1	1	27
Semi-Annual Laboratory Reports to Employers [40.111(a)]	48	437,670	29,178	787,806
Medical Review Officer (MRO) (Qualifications and Continuing Education) Training Documentation [40.121(c) & (d)]*	3,630	3,630	242	6,534
MRO Review of Negative Results Documentation [[40.127(b)(2)(ii)]	11,000	345,000	23,000	621,000
MRO Failure to Contact Donor Documentation [40.131(c)(1)]	11,000	69,000	4,600	124,200
MRO Effort to Contact DER Documentation [40.131(c)(2)(iii)]	11,000	48,300	3,220	86,940
DER Successful Contact Employee Documentation [40.131(d)]	40,000	47,817	3,187	86,070
DER Failure to Contact Employee Documentation [40.131(d)(2)(i)]	400	483	32	864
MRO Verification of Positive Result Without Interview Documentation [40.133].	483	483	32	864
Adulterant/Substitution Evaluation Physician Statements [40.145(g)(2)(ii)(d)]	0	0	0	0
MRO Cancellation of Adulterant / Substitution for Legitimate Reason Reports [40.145(g)(5)]	0	0	0	0
Employee Admission of Adulterating / Substituting Specimen MRO Determination [40.159(c)]	15	15	1	27
Split Specimen Requests by MRO [40.171(c)]	4,000	5,175	345	9,315
Split Failure to Reconfirm for Drugs Reports by MRO [40.187(b)]	61	61	4	117
Split Failure to Reconfirm for Adulterant / Substitution Reports by MRO [40.187(c)]	4	4	1	27

Shy Bladder Physician Statements [40.193(f)]	690	690	58	1,552
MRO Statements Regarding Physical Evidence of Drug Use [40.195(b) & (c)]	0	0	0	0
Drug Test Correction Statements [40.205 (b)(1) & (2)]	8,000	69,000	9,200	248,400
Breath Alcohol Technician (BAT) / Screening Test Technician (STT) (Qualification and Refresher) Training Documentation [40.213(b)(c)&(e)]**	2,000	2,000	133	3,600
BAT/STT Error Correction Training Documentation [40.213(f)]	80	80	5	144
Complete DOT Alcohol Testing Forms [40.225(a)]	10,000	1,604,453	213,927	5,776,030
Evidential Breath Testing Device Quality Assurance / Calibration Records [40.233(c)(4)]	10,000	10,000	666	18,000
Shy Lung Physician Statements [40.265(c) (2)]	80	80	5	144
Alcohol Test Correction Statements 40.271(b)(1)&(2)	160	160	11	288
Substance Abuse Professional (SAP) (Qualification and Continuing Education) Training Documentation 40.281(c)&(d)*	3,334	3,334	222	6,000
Employer SAP Lists to Employees [40.287]	10,000	114,000	7,600	205,200
SAP Reports to Employers [40.311(c),(d) & (e)]	10,000	40,960	2,730	73,728
Correction Notices to Service Agents [40.373(a)]	5	5	5	135
Notice of Proposed Exclusion (NOPE) to Service Agents [40.375(a)]	2	2	2	54
Service Agent Requests to Contest Public Interest Exclusions (PIE) [40.379(b)]	2	2	2	54
Service Agent Information to Argue PIE [40.379(b)(2)]	2	2	8	216

Service Agent Information to Contest PIE [40.381(a) & (b)]	2	2	8	216
Notices of PIE to Service Agents [40.399]	1	1	1	27
Notices of PIE to Employer and Public [40.401 (b) & (d)]	1	1	1	27
Service Agent PIE Notices to Employers [40.403 (b) & (d)]	300	300	150	4,050
TOTAL	2,783,195	6,751,580	695,300	18,774,160

* pro-rated over a 3 year period based upon frequency of training requirement

** pro-rated over a 5 year period based upon frequency of training requirement

The salary cost is based upon the Department of Labor's bureau of Labor Statistics average employee compensation hourly cost in 2006.

NOTE: See Appendix E for explanation worksheets

Supplemental Program Information:

A. Number of Employers Regulated by DOT's drug and alcohol testing program

FMCSA	650,000
FRA	650
FAA	6,900
FTA	3,137
PHMSA	2,450
Total	663,137

[Based on 2006 DOT Operating Administration data]

B. Number of Employees Regulated by DOT's drug and alcohol testing program

FMCSA	10,000,000
FRA	97,000
FAA	419,000
FTA	261,244
PHMSA	190,00
Total	10,967,244

[Based on 2006 DOT Operating Administration data]

C. Service Agents:

Urine Collectors	25,000
Laboratories	48
Medical Review Officers (MRO)	11,000
Substance Abuse Professional (SAP)	15,000
Breath Alcohol Technician (BAT) & Screening Test Technician (STT)	10,000

[Based on ODAPC and HHS data]

D. Drug Testing:

Drug Tests Annually	6,900,000
Laboratory Positive Rate	2.0%
Laboratory Positives	138,000
MRO Verified Positives	1.5%
Verified Positives	103,500

[Based on MIS and laboratory data]

E. Alcohol Testing:

Alcohol Tests Annually	1,604,453
Alcohol Positive Rate	.5%
Positive Tests	8,022

[Based on MIS and Industry data]

13. Provide estimates of total annual cost burden to respondents or record keepers resulting from the collection of information.

There are no costs to the respondents.

14. Provide estimates of annualized cost to the Federal government.

There are no additional costs to the Federal Government.

15. Explain the reasons for any changes or adjustments reported in items 13 or 14 of the OMB form 83-1.

Overall the total burden hours have decreased by 157,957 (53,860 – program change; 104,097 – adjustments).

The program change of 53,860 burden hours was as a result of a regulatory change in which the random alcohol testing rates for each DOT agency was reduced to from 25% to 10% (see PRA item 40.225(a) in the table below).

The adjustments of 104,097 burden hours is mostly represented by a reduction in the number of requests for information from previous employers (34,545 hours), a reduction in the number of stand-down requests (7,920 hours), a reduction in the number of SAP reports to employers (13,676 hours), and a recalculation of the number of semi-annual laboratory reports to employers (34,155 hours).

(See the table below for an itemization of the changes in burden hours)

PRA Item	Number of Responses	Burden Hours
Exemptions from Regulation Provisions Requests [40.7(a)]	2	6
New	1	3

16. For collections of information whose results will be published, outline plans for tabulation and publication.

The proposed information collection is not slated for publication.

17. If seeking approval not to display the expiration date for OMB approval of the information collection, explain.

Testing for alcohol (and drugs) as required by the Omnibus Transportation Employee Testing Act of 1991, is considered a long-term program. There are currently no plans to modify the content of the information on the alcohol form or the method of conducting alcohol tests. With this in mind, the DOT considers this form one that will be used well into the future. An expiration date could, in and of itself, create a problem in the field for the technicians (e.g. an employee might refuse to take a test because it appears that the form is outdated). Also in order to take advantage of the economy of scale, many printers of the form – including the Federal Government Printing Office – print this form in large quantities. An expiration date may unnecessarily reduce the value of these forms, and place an undue burden on employers to have more reprinted solely because of the date.

Similar to the alcohol testing form, the Management Information Form (MIS) has not been modified and there are no plans to modify the content of the form. The current form has not changed since its inception. The DOT considers this form one that will be used within the DOT Agencies and their regulated industries well into the future. The DOT Agencies would not want any employer to be out of compliance if they used an MIS form with the incorrect expiration date.

18. Explain each exception to the certification statement identified in item 19 “Certification for Paperwork Reduction Act Submissions,” of OMB form 83-1.

Not applicable.

Worksheets

PRA Cost Indicator Worksheet

PRA Task: *Exemptions from Regulation Provisions Requests*

Regulation Citation: *40.7(a)*

Narrative: Based upon past performance, we believe there will be few requests for exemptions to requirements in Part 40. We estimate that there will be 1 request per year and that each request will take approximately 3 hours to write. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.

Exemption Requests: 1 annually

Annual Burden Hours: 3

Annual Burden \$ Cost: \$81.00

PRA Cost Indicator Worksheet

PRA Task: *Employer Stand-down Waiver Requests*

Regulation Citation: *40.21(b)*

Narrative: Based upon data from the Department's Operating Administrations, there are 663,137 employers within the transportation industries. Operating Administration and ODAPC estimate that there will be 10 requests per year and that each request will take approximately 8 hours to write. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.

Waiver Requests: 10 annually

Annual Burden Hours: 80

Annual Burden \$ Cost: \$2,160.00

PRA Cost Indicator Worksheet

PRA Task; *Employee Testing Records from Previous Employers*

Regulation Citation: *40.25(a)*

Narrative: *Based upon MIS data from the Department's Operating Administrations, we estimated there are 1,964,178 safety-sensitive employees hired annually within the transportation industries. Employers will have to obtain drug and alcohol testing records from previous employers for each of these employees. Both the gaining employer and the previous employer(s) will have roles in this process. We estimate that each report will take approximately 8 minutes to document. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.*

Record Requests: *1,964,178 annually*

Annual Burden Hours: *261,890*

Annual Burden \$ Cost: *\$7,071,040*

PRA Cost Indicator Worksheet

PRA Task: *Employee Releases of Information*

Regulation Citation: *40.25(f)*

Narrative: *Based upon MIS data from the Department's Operating Administrations, we estimated there are 1,964,178 safety-sensitive employees hired annually within the transportation industries. Employers will have to obtain drug and alcohol testing records from previous employers for each of these employees. Employees must sign releases of information before the information can be requested and provided. Both the employer and the employee will have roles in this release process. We estimate it will take approximately 4 minutes to write the release. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.*

Releases of Information: *1,964,178 annually*

Annual Burden Hours: *130,945*

Annual Burden \$ Cost: *\$3,535,520*

PRA Cost Indicator Worksheet

PRA Task: *MIS Form Submission*

Regulation Citation: *40.26*

Narrative: Based upon data from the Department's Operating Administrations, there are 663,137 employers within the transportation industries. Depending on the Operating Administration regulations, some of these employers may be required to submit aggregate annual drug and alcohol testing data via the Drug and Alcohol Testing MIS Data Collection Form. Based on the MIS data, 10,382 companies were required to submit a completed MIS form. Of the 5,871 MIS reports submitted, 71% were submitted electronically. We estimate that it will take approximately 90 minutes to complete the form. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.

MIS Form: 1,702 annually

Annual Burden Hours: 2,553

Annual Burden \$ Cost: \$68,954

PRA Cost Indicator Worksheet

PRA Task: *Collector (Qualification and Refresher) Training Documentation*

Regulation Citation: *40.33(b)&(e)*

Narrative: *Based upon collection industry and DOT data, there are approximately 25,000 urine collectors. This number has remained steady from year to year (as new collectors enter the field and seasoned collectors leave) for the past several years. All collectors must be trained and must document the fact that training took place. Documentation of the training is usually in the form of a letter or statement acknowledging the name of the participant, the date and location of training, and the name of the trainer attesting to the error-free collections, Because training requirements are on a 5-year cycle, we have calculated the training documentation requirement pro-rated over a 5-year period. We estimate it will take 4 minutes to document the training. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.*

Collector Training Documentation: *5,000 annually*

Annual Burden Hours: *333*

Annual Burden \$ Cost: *\$9,000*

PRA Cost Indicator Worksheet

PRA Task; *Collector Error Correction Training Documentation*

Regulation Citation: *40.33(f)*

Narrative: *Based upon laboratory data, we have determined that 6.9 million drug tests annually are accomplished under DOT authority within the transportation industries. Of these tests, laboratories report that approximately .2% have fatal errors caused by collectors. When such errors occur, collectors must receive training focusing upon the error that resulted in a canceled test Documentation of this training must be made and is usually in the form of a letter or statement acknowledging the name of the participant, the date and location of training, and the name of the person attesting to the error-free collections. We estimate it will take approximately 4 minutes to write the error-correction statement. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.*

PRA Cost Indicator Worksheet

PRA Task: *Service Agent Information to Argue PIE*

Regulation Citation: *40.379(b)(2)*

Narrative: *Per industry estimates there are approximately 61,000 service agents serving the transportation industries. When a service agent performs in a manner that investigators find to be an egregious violation of DOT rules and they do not, or cannot, correct the problem, the service agent will receive a correction notice. When the service agent does not correct the problem, a NOPE will be submitted to them. When the NOPE is submitted, the service agent can submit a request to contest the issuance of a PIE. Services agents contesting the PIE are required to submit information that presents their supporting arguments against the issuance of a PIE. Based upon past examples, DOT estimates that there will be 2 of these submitted annually. We estimate it will take will take 4 hours to write. Wage estimates were based upon Department of Labor's Bureau of Labor Statistics average employee compensation hourly cost in 2006.*

Information to Argue PIE: *2 annually*

Annual Burden Hours: *8*

Annual Burden \$ Cost: *\$216*
