No material or non substantive change to a currently approved collection

OMB No. 0584-0401

The Integrity Profile (TIP) Data Collection

It was discovered during the last review for the Information Collection Budget that cost associated with capital and start-up costs were reported incorrectly.

The costs reported should have been identified as \$600 per respondent, not the \$600,000 reported for the entire collection (\$600 reported was converted in to thousands of dollars, thus the \$600,000 figure). The correct dollar amount is \$53,400. This figure is derived from the 89 respondents incurring a \$600 annual cost associated with system code modifications.

This no material or non substantive change to this currently approved ICR is being submitted to revise the annual burden costs (\$600,000) identified to \$53,400.
