

The only difference in the gathering of data between Unregistered and Registered eFilers is on Figure 1 and Figure 9. Figure 1, the PKI or digital certificate is used to identify the eFiler thus all they need to do is select the type of submission they are doing. On Figure 9 the Unregistered eFiler must identify him or her self when they select the type of submission they are doing. That is because we have no other means to identify them. All other screens of data collection are the same except in the upper left hand corner where it says Unregistered or Registered. Let me know if you need other information.

Figure 1 Registered eFiler Submission Selection

The screenshot shows the USPTO eFiling interface for a registered user. At the top, the header reads "United States Patent and Trademark Office" with navigation links for Home, Site Index, Search, FAQ, Glossary, Guides, Contacts, eBusiness, eFile Alerts, News, and Help. Below this, a secondary navigation bar includes Portal Home, Patents, Trademarks, Other, and Sign-Off/Authenticated Session. The main content area is titled "EFS Registered" and contains a "Certification" section with a warning: "A submission has not been filed officially at the USPTO until the e-filer executes the Submit function and the documents are received at the USPTO Eastern Time. The Acknowledgement Receipt is evidence of this submission." Below the warning, a message states "Your Digital Certificate has been authenticated - please certify your identity:" followed by two radio button options: "I certify that I am the certificate holder Tony Uranga Test" (selected) and "I certify that I am working under the authority of the certificate holder: Tony Uranga Test". A "Main Functions" section includes a "New application" radio button (selected) with a sub-note "(This includes new filings of continuation, divisional, and continuation-in-part applications.)". A "Select Type of New Application" box contains five radio button options: Design, Utility (selected), Provisional, U.S. National Stage under 35 USC 371, and International Application for filing in the US receiving office. At the bottom, there are radio buttons for "Existing application/patent" and "My Workplace".

Figure 2 Registered and Unregistered eFiler Bibliographic Data entry

The screenshot shows the USPTO eFiling interface for a registered user, specifically the "Application Data" entry screen. The header and navigation are identical to Figure 1. The main content area is titled "EFS Registered" and features a progress bar with steps: Register eFiler, Please Read Announcements, Application Data (current step), Attach Documents, Review Documents, Calculate Fees, Confirm & Submit, Pay Fees, and Receipt. A warning message is present: "A submission has not been filed officially at the USPTO until the e-filer executes the Submit function and the documents are received at the USPTO Eastern Time. The Acknowledgement Receipt is evidence of this submission." The "Application Data" section includes:

- * Title of Invention: A text input field containing "My Invention" with a help icon.
- Attorney Docket Number: A text input field with a help icon.
- First Named Inventor: A section with three text input fields for First Name (containing "Tony"), Middle Name, and Last Name (containing "Smith").
- Correspondence Address: A section with a radio button for "Customer Number" (selected) and a radio button for "Correspondence Address". The "Customer Number" field contains "[00059 -> SIRA SUITE 800" and has a help icon. A note above the field reads "Please select a valid Customer Number" and another note to the right reads "Please enter a valid Customer Number".
