

Office of Research
Institutional Review Board

MEMORANDUM

To: Lynne E. Wagenknecht, Dr.P.H.
PHS - Epidemiology

From: Chairman, Board #--1
Institutional Review Board

Date: June 6, 2006

Subject: Human Protocol: BG86-0155
Atherosclerosis Risk in Communities - Forsyth County Field Center

This is to confirm for your record that the Institutional Review Board reviewed by Full Board your progress report and consent form, containing compounded HIPAA authorization language, if applicable, for the above-named protocol at the meeting of June 6, 2006 and voted renewal of approval. IRB approval is for a period of 12 months from 6/26/2006. If the protocol is to remain active longer, a written request for renewal, together with a summary progress report, and a copy of the current consent form, if applicable, should be submitted to the Board early in May 2007. Please notify the Office of Research when the project is terminated.

A handwritten signature in black ink, appearing to read "Richard Weinberg".

Richard Weinberg, M.D.
