PHOSPHATE ROCK

**INDIVIDUAL COMPANY
DATA - PROPRIETARY**

Unless authorization is granted in the section above the signature, the data furnished in this report will be treated in confidence by the Department of the Interior, except that they may be disclosed to Federal defense agencies, or to the Congress upon official request for appropriate purposes. Unless objection is made in writing to the USGS, the information furnished in this report may be disclosed to the respondent's State Geological Survey (or similar State Agency) if the State has appropriate safeguards to prevent disclosing company proprietary data.

(Please correct if name or address has changed.)

Public reporting burden for this voluntary collection of information is estimated to average 1 HOUR per response. A Federal agency may not conduct or sponsor, and a person is not required to respond to a collection of information unless it displays a valid OMB control number. Comments regarding this collection of information should be directed to: U.S. Geological Survey, Statistics and Information Systems Section, 988 National Center, Reston, VA 20192. **Please do not mail survey forms to this address.**

GENERAL INSTRUCTIONS

Collection of nonfuel minerals information is authorized by Public Law 96-479 and the Defense Production Act. This information is used to support executive policy decisions pertaining to emergency preparedness, national defense, and analyses for minerals legislation and industrial trends. The USGS relies on your voluntary and timely response to assure that its information is complete and accurate.

Please complete and return a separate form within 3 weeks for EACH STATE in which you mined phosphate rock during the 6-month report period in the enclosed envelope or fax to the above toll-free number. If you do not have exact data, please enter your best estimates and mark with an /e. Use zero (0) when appropriate. Do not report decimals or fractions. Round to the nearest whole number. If you have nothing to report, please sign and return the form. Please do not make entries in shaded areas.

Please use the space for "Remarks" to provide any specific information that will help us in the use or interpretation of the data. Any statement on the effect of changes in economic conditions upon the reporting establishment will be useful. Additional forms are available upon request.

If you have any questions concerning completion of this form, please contact the Mineral Commodities Data Unit, U.S. Geological Survey, 985 National Center, Reston, VA 20192, Telephone (703) 648-7960.

SPECIFIC INSTRUCTIONS

MARKETABLE ROCK is a grade suitable for either sale or use. REPORT ALL MARKETABLE ROCK AND P₂O₅ ON A DRY BASIS AND IN SHORT TONS.

In SECTION 1, receipts from and shipments to other phosphate mining companies are necessary to avoid duplication and to balance this report. Beginning stocks (COLUMN 2) plus marketable rock received from other phosphate mining companies (COLUMN 3) plus total marketable rock produced by you (COLUMN 4) minus quantity sold or used by you (COLUMN 5) minus quantity shipped to other phosphate mining companies (COLUMN 6) should equal ending stocks (COLUMN 7).

In SECTION 3, CODES 321, 322, and 323 - Value, marketable rock - please report the total net value received, f.o.b. plant. If you consume material in your plants or transfer it to another plant of your company, please estimate the value for this material. Use your net selling price as a basis for this estimate; if you did not sell the same type of material, base your estimate on the direct costs of production plus a reasonable proportion of company overhead and profit.

1. Stocks, receipts, production and disposition of MARKETABLE phosphate rock.

^{1/} Marketable production on SECTION 1, COLUMN 4, CODE 101 and P₂O₅ content, CODE 102 should equal the Total marketable rock and P₂O₅ content in SECTION 2, COLUMNS 9 and 10, CODE 299 on reverse side.

^{2/} Marketable sold or used on SECTION 1, COLUMN 5, CODE 101 and P₂O₅ content, Code 102 should equal the Total marketable rock sold or used and P₂O₅ content in SECTION 3, COLUMN 8, CODES 331 and 332 on reverse side.
