**SECTION A - SUMMARY OF BLOOD TESTING WORK**

Report under "Flocks Tested" all flocks officially tested as prospective participating flocks, including those rejected. Report only the results of the **FIRST TEST** of the flock. Do not include the results of re-testing in this section. Flocks in which reactors were found on the first test should be included under "Flocks Tested" **and also** reported under "Flocks With Reactors". Birds which reacted to a blood test but were cleared by laboratory examination should **not** be reported as "Reactors". Report the results of testing under each disease control program separately without regard to the results of tests under other programs.
