Welcome

Welcome to the CDRH Electronic Submissions Software (CeSub)

This software application is intended to automate the current paper submission process. This software contains a number of data capturing tools and helpful dialog boxes to reduce redundant responses for you, and to allow us to capture data in a more useful, structured format. These benefits will enable CDRH to improve our review process and reduce lengthy review times.

For your convenience, an email account has been established to support any questions that you may have regarding the use of this software. Please email any questions or comments to the CeSub team at: **cdrhesub@cdrh.fda.gov.** Please be sure to include your name, company name and contact information in the email.

Thank you again for using our electronic product reporting software. We look forward to hearing from you soon.

Section: Correspondence

Introduction

Information:	*This section allows you to submit certain types of information or inquiries that are not part of a manufacturer's Product Report, Annual Report, or other reports as specified under 21 CFR 1002. However, some correspondence types would likely be submitted in conjunction with Product Reports. Examples of these would be Variance requests, Exemption requests, Laser Light Show notifications, follow-ups from FDA communications and audits, corrective actions, and notifications of product issues.* *The following questions may seem a little too vague or not exactly appropriate to your situation but they are designed to be generic questions to suit many situations and issues. Please respond as well as possible and you have the opportunity to attach PDF letters or files if you like.*

Burden to Industry

Paperwork Reduction Act Statement

Public reporting burden for this collection of information is estimated to average 1 hour per response, including the time for reviewing instructions, searching existing data sources, gathering and maintaining the data needed, completing, and reviewing the collection of information. Send comments regarding this burden estimate or any other aspect of this collection of information, including suggestions for reducing this burden to:
