**Attachment 12 – NHANES Laboratory Component**  
**Attachment 12a - Laboratory Analytes by Age Group**

| Test Name                               | Sample | Matrix      |
|---|--------|-------------|
| <b>Ages 1-2</b>                         |        |             |
| Complete Blood Count                    | Full   | whole blood |
| Erythrocyte Folate                      | Full   | whole blood |
| Ferritin                                | Full   | serum       |
| Folate                                  | Full   | serum       |
| Hepatitis B Surface Antibody (Anti-HBs) | Full   | serum       |
| Transferrin Receptor                    | Full   | serum       |
| Vitamin B <sub>6</sub>                  | Full   | serum       |
| Vitamin D <sup>1</sup>                  | Full   | serum       |
| <b>Ages 3-5</b>                         |        |             |
| Complete Blood Count                    | Full   | whole blood |
| Cotinine                                | Full   | serum       |
| Erythrocyte Folate                      | Full   | whole blood |
| Ferritin                                | Full   | serum       |
| Folate                                  | Full   | serum       |
| Hepatitis B Surface Antibody (Anti-HBs) | Full   | serum       |
| Polyunsaturated Fatty Acids             | Full   | plasma      |
| Trans Fatty Acids                       | Full   | plasma      |
| Transferrin Receptor                    | Full   | serum       |
| Vitamin B <sub>6</sub>                  | Full   | plasma      |
| Vitamin D <sup>1</sup>                  | Full   | serum       |
| <b>Ages 6-11</b>                        |        |             |
| Albumin                                 | Full   | urine       |
| Complete Blood Count                    | Full   | whole blood |
| Cotinine                                | Full   | serum       |
| Creatinine                              | Full   | urine       |
| Erythrocyte Folate                      | Full   | whole blood |
| Folate                                  | Full   | serum       |
| Hepatitis A antibody                    | Full   | serum       |
| Hepatitis B core antibody (Anti-HBc)    | Full   | serum       |
| Hepatitis B Surface Antibody (Anti-HBs) | Full   | serum       |
| Hepatitis B Surface Antigen (HbsAg)     | Full   | serum       |
| Hepatitis C Antibody (Anti-HCV)         | Full   | serum       |
| Hepatitis C Ribonucleic Acid (HCV-RNA)  | Full   | serum       |
| Hepatitis C supplement                  | Full   | serum       |
| Hepatitis D antibody (anti-HDV)         | Full   | serum       |
| High Density Lipoprotein Cholesterol    | Full   | serum       |
| Parathyroid Hormone <sup>1</sup>        | Full   | serum       |
| Polyunsaturated Fatty Acids             | Full   | plasma      |
| Total Cholesterol                       | Full   | serum       |
| Trans Fatty Acids                       | Full   | plasma      |

|                        |      |       |
|------------------------|------|-------|
| Vitamin B <sub>6</sub> | Full | serum |
| Vitamin D <sup>1</sup> | Full | serum |
| <b>Ages 12-19</b>      |      |       |

|   |                  |             |
|---|------------------|-------------|
| Albumin                                     | Full             | urine       |
| Apolipoprotein (B)                          | One-Half Fasting | serum       |
| Biochemistry Profile*                       | Full             | serum       |
| Chlamydia trachomatis(14-19 years)          | Full             | urine       |
| Complete Blood Count                        | Full             | whole blood |
| Cotinine                                    | Full             | serum       |
| Creatinine                                  | Full             | urine       |
| Erythrocyte Folate                          | Full             | whole blood |
| Ferritin (Females 12-19 years))             | Full             | serum       |
| Folate                                      | Full             | serum       |
| Glucose (Oral Glucose Tolerance Test)       | One-Half Fasting | plasma      |
| Glucose, fasting                            | One-Half Fasting | plasma      |
| Glycohemoglobin                             | Full             | whole blood |
| Hepatitis A antibody                        | Full             | serum       |
| Hepatitis B core antibody (Anti-HBc)        | Full             | serum       |
| Hepatitis B Surface Antibody (Anti-HBs)     | Full             | serum       |
| Hepatitis B Surface Antigen (HbsAg)         | Full             | serum       |
| Hepatitis C Antibody (Anti-HCV)             | Full             | serum       |
| Hepatitis C Ribonucleic Acid (HCV-RNA)      | Full             | serum       |
| Hepatitis C supplement                      | Full             | serum       |
| Hepatitis D antibody (anti-HDV)             | Full             | serum       |
| Herpes Simplex Virus (HSV) (14-19 years)    | Full             | serum       |
| High Density Lipoprotein Cholesterol        | Full             | serum       |
| Human Immunodeficiency Virus (18-19 years)  | Full             | serum       |
| Human Papilloma Virus (14-19 years)         | Full             | serum       |
| Human Papilloma Virus (Females 14-19 years) | Full             | swab        |
| Insulin                                     | One-Half Fasting | serum       |
| Low Density Lipoprotein Cholesterol         | One-Half Fasting | serum       |
| Neisseria gonorrhoeae (14-19 years)         | Full             | urine       |
| Parathyroid Hormone <sup>1</sup>            | Full             | serum       |
| Polyunsaturated Fatty Acids                 | Full             | plasma      |
| Thyroid function**                          | One-Third        | serum       |
| Total Cholesterol                           | Full             | serum       |
| Trans Fatty Acids                           | Full             | plasma      |
| Transferrin Receptor (Females 12-19 years)) | Full             | serum       |
| Triglycerides                               | One-Half Fasting | serum       |
| Vitamin B <sub>6</sub>                      | Full             | serum       |
| Vitamin D <sup>1</sup>                      | Full             | serum       |
| <b>Ages 20 and older</b>                    |                  |             |

|                                    |                  |       |
|------------------------------------|------------------|-------|
| Albumin                            | Full             | urine |
| Apolipoprotein (B)                 | One-Half Fasting | serum |
| Biochemistry Profile*              | Full             | serum |
| Chlamydia trachomatis(20-39 years) | Full             | urine |

|  |                  |             |
|--|------------------|-------------|
| Complete Blood Count                         | Full             | whole blood |
| Cotinine                                     | Full             | serum       |
| C-reactive Protein                           | Full             | serum       |
| Creatinine                                   | Full             | urine       |
| Erythrocyte Folate                           | Full             | whole blood |
| Ferritin (Females 20-49 years)               | Full             | serum       |
| Folate                                       | Full             | serum       |
| Glucose (Oral Glucose Tolerance Test)        | One-Half Fasting | plasma      |
| Glucose, fasting                             | One-Half Fasting | plasma      |
| Glycohemoglobin                              | Full             | whole blood |
| Hepatitis A antibody                         | Full             | serum       |
| Hepatitis B core antibody (Anti-HBc)         | Full             | serum       |
| Hepatitis B Surface Antibody (Anti-HBs)      | Full             | serum       |
| Hepatitis B Surface Antigen (HbsAg)          | Full             | serum       |
| Hepatitis C Antibody (Anti-HCV)              | Full             | serum       |
| Hepatitis C Ribonucleic Acid (HCV-RNA)       | Full             | serum       |
| Hepatitis C supplement                       | Full             | serum       |
| Hepatitis D antibody (anti-HDV)              | Full             | serum       |
| Herpes Simplex Virus (HSV) (20-49 years)     | Full             | serum       |
| High Density Lipoprotein Cholesterol         | Full             | serum       |
| Human Immunodeficiency Virus (20-49 years)   | Full             | serum       |
| Human Papilloma Virus (20-59 years)          | Full             | serum       |
| Human Pappilloma Virus (Females 20-59 years) | Full             | swab        |
| Insulin                                      | One-Half Fasting | serum       |
| Low Density Lipoprotein Cholesterol          | One-Half Fasting | serum       |
| Neisseria gonorrhoeae (20-39 years)          | Full             | urine       |
| Parathyroid Hormone <sup>1</sup>             | Full             | serum       |
| Polyunsaturated Fatty Acids                  | Full             | plasma      |
| Prostate Specific Antigen (Males 40+ years)  | Full             | serum       |
| Thyroid function**                           | One-Third        | serum       |
| Total Cholesterol                            | Full             | serum       |
| Trans Fatty Acids                            | Full             | plasma      |
| Transferrin Receptor (Females 20-49 years)   | Full             | serum       |
| Triglycerides                                | One-Half Fasting | serum       |
| Vitamin B <sub>6</sub>                       | Full             | serum       |
| Vitamin D <sup>1</sup>                       | Full             | serum       |

<sup>1</sup>Vitamin D and Parathyroid hormone. A specimen is being stored for each of these analytes until a the new Standard Reference Material is available from NIST for Vitamin D.

#### \*Biochemistry Profile

- Albumin
- Alkaline phosphatase
- Aspartate aminotransferase (AST)
- Alanine aminotransferase (ALT)
- Blood urea nitrogen (BUN)
- Bicarbonate (HCO<sub>3</sub>)
- Total calcium
- Total cholesterol

Chloride  
Creatinine  
Globulin  
Glucose  
v-glutamyltransferase (GGT)  
Iron  
Potassium  
Lactate dehydrogenase (LDH)  
Sodium  
Osmolality  
Phosphorus  
Total Bilirubin  
Total protein  
Triglycerides  
Uric acid 7

**\*\*Thyroid function**

Free T4  
Total T4  
TSH  
Thyroid peroxidase antibody  
Free T3  
Total T3  
Thyroglobulin  
Antibody to Thyroglobulin
