

The National Evaluation of the Comprehensive Community Mental Health Services for Children and Their Families Program: Phase V - (OMB No. 0930-0280) was approved on 2/20/06 through 10/31/09.

SAMHSA was just approved for the 5 additional grantees for an additional request of 4,656 total hours. But the original burden hours of 23,280 hours were deleted/decreased. I need to request that the original 23,280 hours be added/increased back in to the approved annualized hours. SAMHSA is requesting 27,936 total burden hours for OMB No. 0930-0280
