***LAST CALL!
FINAL HOORAH!***

We are in the final stages of soliciting local residents' views about the public land areas that surround the Upper Las Vegas Wash, and about future management and development alternatives that are being considered for that area. The response from people living in your neighborhood and others located near to the Wash has been outstanding. As you can see, we have almost reached our response rate goal. **There is still time for your views to be heard!**

We are sending this final letter and another copy of the survey questionnaire because of our concern that people who have not yet responded to the survey may have different opinions, experiences and concerns than those who we have already heard from. Only by hearing from nearly everyone included in our random sample of residents who live near to the Wash can we be sure that the results of this study will accurately represent the full range of experiences and viewpoints that exist among local area residents. We really hope that you can find 25-30 minutes during the next few days to complete the questionnaire and mail it back to us in the postage-paid envelope that we have provided.

Please feel free to call (435-797-1241) or contact me by e-mail (Richard.Krannich@usu.edu) if you have any questions. Thank you very much for helping us with this important study.

Sincerely,

Richard S. Krannich
Professor of Sociology and Project Director

Response-O-Meter!
