

Notes

- All pages being replaced for any reason have a new footer label: “Edition: July 2007”
- Three categories of revisions are being made.
 - (1) Some pages are being replaced because of changes to the substance of the Community Rating System. These are summarized in the section “Substantive Revisions,” below.
 - (2) Some pages are being replaced to correct a typographical error or to update an address, phone number, URL, table of contents, summary box, glossary, or list of acronyms.
 - (3) All Activity Worksheets (AWs) are being replaced to show the new OMB expiration date. (some have substantive changes as well).
 - (4) Some pages are being replaced only because they were assigned new page numbers when a substantive revision altered the pagination in the rest of the section.
 - (5) Some pages are being replaced because they are adjacent to a page with a substantive or pagination revision (for back-to-back printing).

Substantive Revisions

Change	Page number(s)
New language on CRS goals	110-1-2
