UC - HBCU

Historically Black Colleges and Universities

To assist Historically Black Colleges and Universities expand their role and effectiveness in addressing community development needs in their localities including revitalization, housing and economic development, principally for persons of low-and moderate-income.

Need Statements

There is a need for HBCUs to utilize the skills and talents available at their institutions to assist communities in undertaking community and economic development activities which benefit low- and moderate-income persons.

There is a need for HBCUs to utilize the skills and talents available at their institutions to assist communities in undertaking community and economic development activities which aid in the prevention or elimination of slums and blight.

There is a need for HBCUs to utilize the skills and talents available at their institutions to assist communities in undertaking community and economic development activities which meet urgent community development needs that pose a serious and imminent threat to the health and welfare of the community when other financial resources are not available.

HUD Master Models (2007) Historically Black Colleges and Universities

Evaluation Process - These are standard requirements that HUD will expect every program manager receiving a grant to do as part of their project management.

- An evaluation process will be part of the on-going management of the program.
- Comparisons will be made between projected and actual numbers for both outputs and outcomes.
- Deviations from projected outputs and outcomes will be documented and explained.
- Analysis of data to determine the relationship of outputs to outcomes; what outputs produce which outcomes.

HUD Will Use The Following Management Questions To Evaluate Your Program

- How many new jobs were created as result of new businesses?
- How many commercial facilities were added through construction?
- How many commercial facilities were added through rehabilitation?
- How many offices were added through construction?
- How many offices were added through rehabilitation?
- How many public facilities were added through construction?
- How many public facilities were added through rehabilitation?
- How much housing was added through construction?
- How much housing was added through rehabilitation?
- 10. How many persons purchased a home?
- 11. How many homes were made lead safe?
- 12. How many students increased their GPA?
- 13. How many students acquired marketable skills?
- 14. How many students received their GED?
- 15. How many families acquired a home maintenance grant?
- 16. How many Micro-enterprises were established as a result of technical assistance?
- 17. How many Micro-enterprises were stabilized as a result of technical assistance?
- 18. How many Micro-enterprises were expanded as a result of technical assistance?
- 19. How many Micro-enterprises were established as a result of financial assistance?
- 20. How many Micro-enterprises were stabilized as a result of financial assistance?
- 21. How many Micro-enterprises were expanded as a result of financial assistance?
- 22. How many new affordable housing units were built?
- 23. How many new businesses were created?
- 24. How many high school students are expected to pursue post-secondary education?

Carter-Richmond Methodology

The above Management Questions developed for your program are based on the Carter-Richmond Methodology1. A description of the Carter-Richmond Methodology appears in the General Section of the NOFA.
